Juniata College is an independent, privately supported coeducational institution committed to providing a liberal arts education to qualified students regardless of sex, race, religion, creed, color or handicap. Its policies comply with requirements of Title VIII of the Civil Rights Act of 1964, Title IV of the Education Amendments of 1972, and all other applicable federal, state and local statutes, regulations and guidelines.

On the cover: Juniata's founders A.B. Brumbaugh, H.B. Brumbaugh and J.B. Brumbaugh reflect on "the dream realized" high above Juniata's campus at the Elizabeth Evans Baker Peace Chapel. See feature story on page 2.

"Every institution has its origin somewhere, sometime, for some purpose; if it prove worthy it will win patronage... Concerning an institution we have in mind, little secrets are constantly leaking out which amount for success in the face of adverse circumstances. As they sit under the broad bower of their educational roof-tree, some students of today may be interested enough to inquire of its early history. Some may know when the seed was sown; some may have learned of the early frost that cut off all hope of life for a time, the subsequent sprouting and growth, the later storm-twisting stages and the pruning and lopping of branches until the heart-root struck deep and the roof-tree budded, blossomed, and spread its arms, to our supreme delight."

— David Emmert, 1901, *Reminiscences of Juniata College*

A. B. Brumbaugh

H. B. Brumbaugh

J. B. Brumbaugh

Juniata College's first classroom as illustrated in David Emmert's book Reminiscences of Juniata College.

The Dream Realized...

It has all the ingredients of a best selling novel.

A physician, living in a small Pennsylvania town, dreamed of building a school where young people could satisfy their hunger for learning. The school would be surrounded by "one of the grandest cycloramas of mountain scenery, a river that weaves through the community, and valleys dotted with farmhouses and variegated by cultivated fields and native woodland." Knowing that the task before him was monumental, Dr. A.B. Brumbaugh asked his two cousins to help fulfill his dream. And so the three men with their wives undertook the task.

It is a love story...the love of church and God, the love and commitment to young people and education, the love of nature and the Huntingdon community. The story as it unfolds has as many twists and turns as the river for which the school would be named.

Opposition was strong among members of the Church of the Brethren, education was viewed as wordly. Still A.B. and his cousins H.B. and J.B. Brumbaugh would persevere in an effort to resurrect a desire for higher education among the Brethren. Church historians testify that early church leaders were advocates of higher education, but following the Revolutionary War there came a period of education eclipse which took more than a century to pass.

Despite the opposition, the physician's dream became reality on April 17, 1876, when a young man named Jacob Zuck greeted three students in a small room on the second floor of a

building in Huntingdon, Pennsylvania.

David Emmert in his book *Reminiscences of Juniata College* writes, "The surroundings were in keeping with the humble spirit of the founder. The little room, 12 x 16 feet, with two windows on the south, through which soft light sifted in under the leaves of the tall maples that stood close outside; a long pine table in the center, with three chairs around it; plain pine shelves, holding the modest but well-selected library of the teacher; at the far end of the room, and close by it his table with checkered cover and large glass ink stand, above these, on the wall, a map of the world; a round backed arm chair with deerskin thrown over the back and seat, and a long blackboard on stilts leaning against the wall, completed the general furnishing...Into this little compartment, morning by morning, gathered the band of earnest workers, slowly increasing,—now one and another was added as the skill of the teacher became known. By the end of the session a dozen or more were crowding around the long pine table and 'the star of hope' was rising."

From a humble beginning the school blossomed, enrollment increased, a larger location was needed and the professor persevered. The message to the sixty students who enrolled in the fall of 1877 was "we want no drones in this educational hive. If you do not care to work, save your money and go home..."

"Professor Zuck was eminently practical and aimed to bring out the best in the individual...There was a buoyant feeling of hope among the students and a deep sense of responsibility

(continued on p. 4)

Professor Jacob Zuck

among founders and friends of the school. It was a kind of dream period of the 'what is to be,'" Emmert explained in his book.

Love, commitment, courage and hope were several of the main ingredients of the compelling story on how Juniata College came to be. The story, however, would not be completed without recounting the tragedy and the will to overcome and conquer challenges.

An outbreak of the smallpox epidemic forced the school to close its doors. Emmert accounts in his book, "before us lay the possible abandonment of the school enterprise."

At the same time a committee consisting of James Quinter (an elder in the Church of the Brethren), Dr. A.B. Brumbaugh and Professor Jacob Zuck, recommended "solicitation of stock subscriptions from Brethren and others friendly to the cause, to establish a school of learning that will provide the young of both sexes with such educational advantages as will fit them for the duties and responsibilities of life...."

A Board of Trustees was assembled and included: James Quinter, H.B. Brumbaugh, A.B. Brumbaugh, J.M. Zuck and J.W. Beer. The latter, who was the first solicitor, left Huntingdon in 1878 and was replaced by William J. Swigart. Through the leadership of this first board, funds were sought to build a facility. "The new building, known as Founders Hall, was possible by the generosity of the citizens of Huntingdon, who bought and donated to the Trustees a plot of ground on an elevated site in what is known as West Huntingdon. This property embraced 16 town lots bounded by Moore, Oneida,

"The newborn institution through these trials manifested an unexpected vitality. The smallpox epidemic and the loss of the principal just on the eve of a hopeful development would have thoroughly discouraged any but the stoutest hearts. The men who built Juniata, however, were men of courage and of vision..."

C.C. Ellis

Seventeenth and Eighteenth Streets. Ground was broken on May 6, 1878." (*Juniata College: The History of Seventy Years*, by Charles C. Ellis)

"Naturally Professor Zuck was filled with enthusiasm when he spoke on the occasion of the dedication of the new building, and it was an event long to be remembered by all those whose toil and sacrifice made it possible," writes Ellis in his book.

Shortly after the dedication, Professor Zuck caught a severe cold while living in a dormitory room where the walls were damp. He developed pneumonia and passed away on May 10, 1879. He did not see the first class graduate.

Ellis writes, "the newborn institution through these trials manifested an unexpected vitality. The smallpox epidemic and the loss of the principal just on the eve of a hopeful development would have thoroughly discouraged any but the stoutest hearts. The men who built Juniata, however, were men of courage and of vision..."

At a special memorial service on June 12, 1879, Dr. A.B. Brumbaugh delivered an address which is prophetic as we look at Juniata College 114 years later. He said, "The time will come when the influence of this school movement will be felt from the Atlantic to the Pacific, and from the Lakes to the Gulf."

Today, if A.B. Brumbaugh and his cousins H.B. and J.B. were to walk across Juniata's campus, through the classrooms and laboratories, residences halls and playing fields they would be moved to tears. Just for a moment their Brethren piety just might be replaced with a sense of pride, their modesty replaced with majesty.

The original Founders Hall

They would stand at the foot of Founders Hall surrounded by the breathtaking beauty of the 100 acre campus and 32 buildings. They would feel the energy of a dynamic faculty: a faculty with the same enthusiasm for teaching and learning that characterized Jacob Zuck. They would encounter students with a vim and vigor for knowledge. They would have great satisfaction in knowing that the leadership of the institution, some one hundred years later, still possesses courage and is holding fast to a vision.

A.B. Brumbaugh would marvel at the school and its success. From three students and one room to 10,000 alumni whose impact has been felt "from the Atlantic to the Pacific, from the Lakes to the Gulf" and to the far corners of the world — alumni who have contributed to medical research, chemistry, education, business, law, music, art, social work, environmental science, athletics and entertainment — alumni who have served their churches, the homeless, the hungry and the abused.

A.B. Brumbaugh would feel satisfaction in learning that students from across the United States and from countries around the world enroll at Juniata College each year. Furthermore, Juniata students have the opportunity to attend prestigious universities in France, England, Ecuador, Mexico, Spain, Germany, Greece, Japan and China as part of a study abroad program.

(continued on p. 6)

*"The time will come when the
influence of this school
movement will be felt from the
Atlantic to the Pacific, and
from the Lakes to the Gulf."*

A.B. Brumbaugh, 1879

Residential Life 1899

Residential Life 1993

Mountain Day at the turn-of-the-century

Mountain Day remains popular with today's Juniata students.

Science remains a strength on Juniata's campus and while scientific and technological advances have made technological literacy and proficiency a requirement for success, Juniata has not lost sight of the humanity associated with scientific endeavors.

He would be astounded to know that a tradition born in his generation, Mountain Day, remains popular today with the 1100 students on campus.

A library with 208,000 volumes, a rare book collection and a world-wide interlibrary loan system has evolved from Jacob Zuck's one shelf of books. Perhaps the most remarkable discovery for A.B. would be that the peaceful nature of his being has woven its way through the school's history and evolved into a peace and conflict studies program. A program which is the springboard for an exclusive agreement between the United Nations, the International Association of University Presidents and Juniata College (see stories, pages 8-10).

"And while scientific and technological advances have made technological literacy and proficiency a requirement for success, Juniata has not lost sight of the humanity associated with scientific endeavors."

And while scientific and technological advances have made technological literacy and proficiency a requirement for success, Juniata has not lost sight of the humanity associated with scientific endeavors.

Finally, A.B. and his cousins would make their way through campus and up the mountain to Juniata's Elizabeth Evans Baker Peace Chapel. They would sit on marble rocks high above the college and the community and reflect on the journey their school had made through history. It survived small pox, death, wars, prejudice and hate, competition for students and deficits. It celebrated life, love, victories and success. It overcame challenges, sorrow and pain.

A.B. and his cousins, high above the campus, would give thanks for a dream realized. Indeed Juniata College had persevered.

AROUND & BEYOND CAMPUS

UNITED NATIONS, UNIVERSITY PRESIDENTS AND JUNIATA COLLEGE ANNOUNCE FIRST-EVER SEMINARS ON ARMS CONTROL FOR DEVELOPING NATIONS

Left to right: Robert W. Neff, Juniata College president; Alvaro Romo, secretary general of the International Association of University Presidents; and Andrew Murray, director of the Baker Institute

The United Nations Office for Disarmament Affairs, the International Association of University Presidents and Juniata College recently announced an agreement to jointly sponsor a series of yearly seminars on arms control and disarmament for scholars and government officials from developing nations.

This is the first time that the United Nations has joined with an educational institution in a long-term effort to educate future leaders of developing nations on the practical issues involved in disarmament, arms control and conflict resolution.

The International Seminar on Arms Control and Disarmament will be held at Juniata College in Huntingdon, Pennsylvania and will be administered by Juniata's Baker Institute for Peace and Conflict Studies (see story, page 9). The first seminar will take place in September, 1993.

"The sad unfolding of ethnic and religious wars and regional power contests in Africa, Eastern Europe and elsewhere reminds us that the end of the Cold War has not left us one day wiser about the conditions that lead humans into hot wars," said Dr. Andrew Murray, director of the Baker Institute.

The seminars will be targeted primarily

at the university scholars from developing nations who will teach the next generation of their countries' leaders. The seminars will also be opened to government officials themselves, as appropriate.

Each Juniata seminar will have 10 to 12 participants and last two to three weeks. Faculty will include experienced negotiators, arms control theorists, researchers and trainers with practical experience in conflict management and dispute resolution. Some seminars will be targeted to a single region, while others will have a broader focus.

"The goal is to begin building a constituency for arms control and disarmament — both in government circles and among the citizenry — in developing nations," said Prvoslav Davinic, director of the United Nations Office for Disarmament Affairs.

The seminars will focus both on the context — the history, psychology and anthropology of human conflict — and the practical issues and skills involved in negotiating meaningful, workable agreements for the reduction of arms and military expenditures.

Conflict simulations, role plays and

discussions with negotiators who have successfully concluded arms control and security agreements will form the core of the seminars.

"We want to build on the achievements of the past 20 years, such as the strategic arms reduction treaties between the U.S. and the former U.S.S.R. and the agreement between Brazil and Argentina to confine their nuclear resources to peaceful purposes," said Leland Miles, president emeritus of the International Association of University Presidents. "We need to take the expertise gained by those negotiators and apply it to conflicts in the developing world that claim thousands of lives every day. Education is not only an indispensable first step; it is, in the long run, the most effective form of preventive diplomacy."

The United Nations Office for Disarmament Affairs assists and provides advice to the Secretary-General on all matters concerning arms regulation and disarmament (see story, page 10). The International Association of University Presidents is an independent organization of university presidents and rectors from 55 nations, founded to help advance peace through education. (see story, page 10)

JUNIATA COLLEGE'S BAKER INSTITUTE IS LEADER IN PEACE AND CONFLICT STUDIES

Since its founding in 1973, the Peace and Conflict Studies program at Juniata College has been a leader in the development of the academic discipline of peace studies. Peace and Conflict Studies became a full, degree-granting program at Juniata in 1982, and in 1987 the college established the Baker Institute for Peace and Conflict Studies, an endowed center for research and teaching in peace studies.

Juniata's Peace and Conflict Studies (PACS) program begins with the premise that peace is not simply the absence of conflict, but a social process in which conflict must be managed so as to be a creative, rather than destructive force in the human community. The PACS program is an interdisciplinary inquiry into the causes, structures and consequences of conflict. While giving major emphasis to organized violence and war as urgent global problems, the PACS program also addresses the issues of conflict and violence among individuals.

The program is taught by eight faculty across several departments, including anthropology, biology, history, geology, political science, psychology and religion. In addition to core courses on conflict management, negotiation, human behavior and the anthropology of war and peace, the PACS degree requires competency in a second language and either a Washington, D.C. internship or a year of study abroad.

Approximately 200 students per year are enrolled in at least one PACS course at Juniata. The college has granted 40 PACS degrees since 1984.

For some students, a Juniata PACS degree leads to graduate studies in disarmament and arms control, international law or strategic studies. Other graduates have gone on to work for, or direct, advocacy groups such as the Washington Peace Center, the Union of Concerned Scientists and the Campaign

Dr. M. Andrew Murray, director of the Baker Peace Institute

Approximately 200 students are enrolled in at least one peace and conflict studies course each year. Several students, involved in the program, attended the press conference in New York.

Against TV Violence.

Juniata College has been a leader in the development of peace studies, and was one of the founding members of the Peace Studies Association in 1987. Nationwide there are some 200 undergraduate and graduate peace and conflict studies programs.

Part of the Baker Institute's charge is to aid the growth and development of other

peace studies programs. Dr. Andrew Murray, the institute's director, has written a guide to peace studies curriculum development and is frequently consulted by other institutions developing their own programs. A \$100,000 grant from the John D. and Catherine T. MacArthur Foundation has supported the development of innovative peace studies curricula by several Juniata faculty members in biology and psychology.

UNITED NATIONS OFFICE FOR DISARMAMENT AFFAIRS

The United Nations Office for Disarmament Affairs (ODA), a component of the Secretariat of the United Nations, assists and advises the Secretary-General in the discharge of his responsibilities under the Charter of the United Nations and as mandated by resolutions and decisions of the General Assembly and other legislative organs of the United Nations on disarmament matters, and represents him as required.

Within the overall framework of legislated mandates, ODA serves as the focal point within the United Nations Secretariat for all matters concerning arms regulation and disarmament. It also administers the United Nations regional centres for disarmament established in Africa, Asia and Latin America. Through the activities of these centres, UNODA seeks to promote regional approaches to disarmament.

Further, ODA publishes a variety of information materials on disarmament; provides guidance and coordination within the United Nations for the activities of the United Nations Disarmament Information Programme (formerly the World Disarmament Campaign); and engages in direct interaction with non-governmental organizations, the mass media and research and academic institutions. In addition, ODA carries out a Disarmament Fellowship, Training and Advisory Services Programme for training young diplomats, largely from developing countries. The annual programme normally lasts four months and comprises a series of lectures and attendance at meetings of the Conference on Disarmament in Geneva and the First Committee of the General Assembly, as well as visits to various countries.

The Office for Disarmament Affairs is sponsoring the International Seminar on Arms Control and Disarmament. As a sponsor, ODA is represented in the administrative committee which is responsible for scheduling the seminar, approving the curriculum and faculty, making final selections of the participants and providing general oversight, guidance and lecturers to the seminar.

Dr. Robert W. Neff, Juniata College president; Donald D. Moyer, vice president for college advancement; and Prvoslav Davinic, director of the United Nations Office of Disarmament Affairs

INTERNATIONAL ASSOCIATION OF UNIVERSITY PRESIDENTS SEEKS TO ADVANCE GLOBAL PEACE THROUGH EDUCATION

The International Association of University Presidents was founded in 1964 to help advance the peace, welfare and security of mankind through education.

The IAUP has no relationship with any government. Its membership consists of university presidents or rectors from 55 countries. The institutions represented by these leaders range from the oldest, largest and most famous to the newest, poorest and least developed.

The association's aim is to foster global security and peace through higher education. The IAUP has sponsored academic collaboration agreements among universities, student and faculty exchanges, production of prototype curricula and symposia on international education. Members have also helped universities in the developing world to expand libraries, develop new programs and train administrative officers.

"The preamble to the UNESCO Charter speaks for IAUP in stating 'Wars begin in the minds of men. It is therefore in the minds of men that the defenses of peace must be constructed,'" said Dr. Leland

Miles, president emeritus of the IAUP.

In 1990 the United Nations Office for Disarmament Affairs agreed to support an IAUP commission established to advance teaching and research in the field of arms control. The Commission held its inaugural meeting in June 1991 at the United Nations in New York.

The IAUP/UN Commission on Arms Control Education consists of 140 members drawn from the academic, diplomatic, governmental, military and business communities. Among the universities involved are Stanford, University of Illinois, New York University, University of Quebec, Uppsala University in Sweden, University of Central America in El Salvador and the Russian Academy of Sciences.

The International Seminar on Arms Control and Disarmament at Juniata College is one of eight education initiatives currently under development by the IAUP/UN Commission. Other projects include development of prototype curricula for interdisciplinary courses in arms control at the undergraduate and graduate level, a layperson's seminar and a research project on downsizing the military.

JUNIATA STUDENTS ATTEND RESEARCH CONFERENCE IN UTAH

Seventeen Juniata students attended the Seventh National Conference on Undergraduate Research, held from March 25- 27 at the University of Utah. Of those seventeen, three presented papers in the areas of chemistry, biology and computer science while four presented their research in fields of the humanities.

Students were accompanied by five Juniata faculty members who had assisted in the projects. The professors played an integral role in supervising the studies, working one-on-one with students to develop their projects. Faculty from the chemistry, biology, and computer science departments who attended were: Dr. David Reingold, associate professor of chemistry; Dr. Paul Schettler, chemistry department chairman; Dr. James Rieker, assistant professor of biology; and Dr. Loren Rhodes, associate professor of mathematics and computer science. Associate professor of art Karen Rosell also attended.

Submitting projects in the sciences were: Alison Battistella, a senior from Mount Union, Pa.; Steven Brunette, a senior from Huntingdon, Pa.; Anita Cardamone, a senior from Pittsburgh, Pa.; Guenter Engling, a visiting student from Haren, Germany; Harold Hersey, a senior from Barre, Mass.; Michael Hancox, a senior from Lavale, Md.; Jennifer Kowalski, a senior from Altoona, Pa.; Anjanette Searfoss, a senior from Millville, Pa.; Jennifer Shriver, a senior from Wind Gap, Pa.; Courtney Spencer, a senior from Sayre, Pa.; Jennifer Sterner, a senior from Benton, Pa.; Rebecca Sponsler, a senior from Altoona, Pa.; and Jeremy Stipkala, a senior from Marlton, Md.

Seniors John Brenner, Jr. from Bedford, Pa., Todd Cammarata from Patton, Pa., and John Lowe from South Bend, Ind. presented projects in history. Junior Brian Hack's research was in contemporary art.

The Seventh National Conference on Undergraduate Research brought together undergraduates involved in scholarly and artistic activities throughout the United States. The students presented topics from a wide range of disciplines including the humanities, the natural sciences,

Ayinde Alakoye

ALAKOYE SELECTED FOR MINORITY LEADERS FELLOWSHIP PROGRAM

Ayinde Alakoye, of Silver Spring, Md., has been chosen to participate in the Minority Leaders Fellowship Program for the summer of 1993. This prestigious award will enable him to spend the summer in Washington, D.C., participating in academic study and a related internship arranged by The Washington Center, the largest organization in the nation's capital that allows students to earn academic credit through academic seminars and internships.

Presidents from over 1000 colleges and universities nominated one or more outstanding minority students from their campuses for consideration for the fellowships, after which the nominees applied by way of submitting an extensive portfolio. A distinguished panel of academic and professional leaders then selected the group of Minority Leaders based on potential for leadership and achievement, as well as previous accomplishments. Alakoye is one of 48 students selected for the summer 1993 program. He is majoring in public administration and political science at Juniata College.

Since 1989, The Washington Center

has offered the Minority Leaders Fellowship Program to provide talented and motivated students of color the opportunity to explore issues of leadership in the exciting environment of Washington, D.C. Through a unique combination of academic seminar, study, fieldwork, and housing, minority students gain exposure to major national decision makers, as well as the chance to investigate various aspects of governance and leadership in both theory and practice.

Alakoye is working in the Washington Office on Africa, with the goal to learn more about the political and international affairs of Africa and their affect on other nations.

As a Juniata student, Alakoye has served as the chairperson of the Multi-cultural Planning Committee, president of the African- American Student Association, and delivered a speech to a full house at the College's convocation celebrating Martin Luther King's birthday. He is also a member of the men's varsity volleyball team and serves as a student representative to the College's Board of Trustees.

performing arts, and engineering, as well as other academic areas. Over 200 colleges and universities were represented from almost every state in the nation.

Since the first conference in 1987, the NCUR has become a major yearly event that draws more than 1,000 undergraduates and their advisors to hear and discuss undergraduate creative and scholarly work through oral and poster presentations and artistic performances.

FACULTY MEMBERS RECEIVE PROMOTIONS

Five Juniata College faculty members were promoted by the college's Board of Trustees during the board's annual spring meeting on May 1. The announcement came from Dr. Robert W. Neff, president of the college.

Promoted to full professor at the college were Dr. Fay I. Glosenger, associate professor of education and Dr. Loren K. Rhodes, associate professor of mathematics.

Promoted to associate professor were William L. Hofelt, Jr., assistant professor of English, Janet R. Lewis, assistant professor of philosophy, and Patricia C. Weaver, assistant professor of economics and business administration.

Dr. Glosenger joined the Juniata College faculty in 1982 as an instructor in education. She was promoted to assistant professor in 1985.

Dr. Glosenger was awarded her Ph.D. in early childhood education from The Pennsylvania State University in 1985. She received her B.S. degree in elementary-kindergarten education and her M.Ed. in academic curriculum and instruction from Penn State as well.

The author of many professional articles and publications, Dr. Glosenger served as coordinator and supervisor of Penn State's elementary pre-student teaching practicum prior to accepting her position at Juniata. Dr. Glosenger also spent eight years teaching in the elementary school of the East Lycoming School District.

In 1988 Dr. Glosenger received the prestigious Lindback Award for Distinguished Teaching at Juniata.

Dr. Rhodes joined the Juniata faculty in 1980. He was promoted to assistant professor of computer science in 1983 and advanced to the rank of associate professor in 1988.

Dr. Rhodes served as acting director of Juniata's Academic Computing Center from 1985 to 1986. He received his B.A., M.S., and Ph.D. degrees from the Pennsylvania State University. Prior to coming to Juniata Dr. Rhodes was a teaching assistant in the department of computer science at Penn State.

Like Dr. Glosenger, Dr. Rhodes is a past recipient of the Lindback Award for Distinguished Teaching at Juniata. Dr. Rhodes received the award in 1986.

William Hofelt became an instructor in English at Juniata in 1966, having graduated from the college with honors in 1965. He was advanced to assistant

Dr. Fay Glosenger

Dr. Loren Rhodes

William Hofelt

Janet Lewis

professor in 1969.

Mr. Hofelt received his master of arts degree in 1967 from the University of Rochester. He has undertaken additional study at the Pennsylvania State University.

Janet Lewis joined the Juniata faculty in 1970 as an instructor in philosophy and was advanced to assistant professor of philosophy in 1973. Prior to her work at Juniata Ms. Lewis served as an instructor in philosophy at Villanova University.

Ms. Lewis received her bachelor of arts degree in philosophy from Wilson College. She received her master of arts degree in philosophy in 1968 from Bryn Mawr College in 1968. She has served as the department chair in philosophy since 1979.

In 1979 Ms. Lewis was recognized for her outstanding teaching by being awarded the Sears-Roebuck Foundation Teaching Excellence and Campus Leadership Award at Juniata.

Patricia Weaver has been a member of the Juniata College faculty since 1991.

Patricia Weaver

Prior to coming to Juniata she was a teaching assistant at the Pennsylvania State University. She received her B.A. and M.A. degrees in English, and her M.S. in business administration from Penn State.

Ms. Weaver is certified as a public accountant in Pennsylvania. She previously was employed as a staff accountant at the firm Young, Oakes, Brown and Company of Tyrone.

JUNIATA COLLEGE NAMES TRUSTEES

The Juniata College Board of Trustees voted Saturday, May 1, to accept into membership four new trustees. The new trustees are Lynn Merritt of Baltimore, Md., Kimber Mitchell of Boalsburg, Pa., Barry Halbritter of Duncansville, Pa., and Maurice Taylor of Catonsville, Md.

Barry J. Halbritter, a native of Hollidaysburg, Pa., graduated from Juniata College in 1965. Following his graduation Mr. Halbritter continued his education at Penn State University.

A successful local businessman, Mr. Halbritter is the president and owner of Mid-State Tool & Supply, Inc. and Fender Mender Sales, Inc. of Altoona, Pennsylvania. He is an involved member of the community, contributing his time and energy to the Kiwanis Club, the Altoona Chamber of Commerce and numerous professional organizations. He is active in the Church of the Brethren, locally and district wide, and serves on the Board of Trustees of the Morrison Cove Home.

Barry's service to Juniata College has been extensive. He has served on the Board of Trustees as the Church of the Brethren Middle District representative, the President's Development Council for thirteen years and for six years as a member and current president of the Church College Relations Council. His commitment to Juniata College has also included chairing the Annual Support Fund, acting as class reunion coordinator, and participating in business department seminars and career day.

Maurice C. Taylor graduated from Juniata College in 1972 with a bachelor of arts degree in sociology. While at Juniata, he served as chairman of the Black Students Association, class president and an admission volunteer, was a campus radio disc jockey, captained the football team, coached the women's varsity basketball team and was an Academic All-American.

A native of Baltimore, Dr. Taylor continued his education at Bowling Green State University, receiving a master's degree and a Ph.D. in sociology. Further study earned him a juris doctor degree from Duke University.

Dr. Taylor's career in the field of higher education began at Northampton County Area Community College as an instructor of sociology and progressed to associate professor and department chair at Hampton University.

After receiving his law degree and holding the position of associate attorney with a law firm in Baltimore, Dr. Taylor returned to higher education. He is currently assistant dean of the College of Arts and Sciences at Morgan State University.

Dr. Taylor has been consistently involved with social issues and his community. He has served as the chairperson of the Baltimore County Human Relations Commission and has been a consultant to the Housing and Urban Development Historical Black College and University Technical Assistant Effort. He also serves as a trustee for The Cardinal Gibbons School and Mercy High School. He is a member of the American Bar Association, the Maryland Bar Association and the National Forum for Black Public Administrators.

Lynn L. Merritt, selected by the National Alumni Association to be the alumni council representative to the board, received her bachelor of arts degree in sociology and public administration from Juniata College in 1990. She pursued graduate studies at the University of Michigan, obtaining a master of science degree in city planning in the spring of 1992. Ms. Merritt is currently employed as a program analyst for the Health Care Financing Administration in Baltimore, Maryland.

Ms. Merritt continues to be involved in the life of Juniata College. In 1992 she traveled from Michigan to be the key note speaker at the college's celebration in recognition of Martin Luther King, Jr.

Kimber (Hershberger) Mitchell, selected to represent the Church of the Brethren on the board, graduated from Juniata College in 1975 with a degree in elementary education. She has undertaken advanced study at Hood College, the University of Minnesota, and Penn State University. She has been a

primary education teacher since graduation from Juniata.

Ms. Mitchell has served the Church of the Brethren on the local, district and national levels. At the national level, she is currently serving on the Global Women's Steering Committee and has served on the Outdoor Ministry Committee. Middle District and local involvements have included the district Program and Arrangements Committee and her local Christian Education Committee which she has chaired. Additionally, she has presented numerous workshops for regional and national youth conferences.

In addition the following trustees were re-elected to the board: Anne C. Baker, of New York, N.Y.; Charles C. Brown, Jr. '59, of Bellefonte, Pa.; Earl D. Croner '38, of Berlin, Pa.; Francis X. DeMar, of Dayton, Ohio; Joseph R. Good '33, of Hollidaysburg, Pa.; William E. Hershberger '57, of Auburn, N.Y.; Edwin L. Kennedy, of New York, N.Y.; Charles R. Knox '54, of Anaheim, Cal.; Edwin A. Malloy, of New York, N.Y.; Garry L. Pote '68, of Huntingdon, Pa.; Betty F. Simpson '49, of Tyrone, Pa.; and Andrew P. Vance, of Scarsdale, N.Y.

STRATEGIC PLAN RELEASED

Economic reality came to roost on the campus of Juniata College May 4 as college officials announced the results of an extensive strategic planning process. The 18-month process has led to a reduction in the number of employees at the college as well as a shifting of priorities back to the college's traditional strengths.

"We have come to realize that we can not be all things to all people when it comes to educational strengths," said Robert W. Neff, president of the college.

"We are refocusing our energy and resources in those areas of traditional strength for the college — the sciences, teacher education and international studies" he added. "We have also identified areas of emerging opportunity for the college, such as environmental studies."

The process, undertaken by the college's Strategic Planning Committee, involved assessments of the college's environment, markets and competition. The committee is made up of the institution's four vice presidents and four representatives of the college faculty.

"The unfortunate result of identifying strengths," Dr. Neff said, "is the identification of areas that are in current dire need of resources, but do not necessarily fit into institutional priorities. In order to move aggressively on the opportunities we have before us, we must reconfigure our priorities."

It is this reconfiguration of priorities that has led to the reductions in certain areas of college employment.

"In addition to reorganizing the college's administration at the highest levels," Dr. Neff stated, "we will eliminate six administrative/staff positions at the end of this fiscal year with an additional two being eliminated by July 1994. We are also eliminating five faculty positions by July 1994."

Juniata College full-time employees affected by the decisions have been receiving outplacement counseling and support services through the firm King, Chapman and Brussard. The employees' related expenses will be reimbursed up to \$1500. "We are doing and will continue to do everything possible to assist our affected employees in finding new

positions," said Dr. Neff.

The Juniata president strongly emphasized that "actions taken regarding personnel are resource driven. In no way should these personnel actions be viewed as performance driven."

Dr. Neff added that the college will also likely contract student health services to an outside group; will likely contract the operation of the college bookstore to an outside group; and will review several ongoing academic support functions for possible refocus.

In his remarks to the assembly of all college employees Dr. Neff reaffirmed his commitment to maintaining the traditional strength of the college. "We have been a strong institution and we will continue to be a strong institution," he said. "I am dedicated to positioning Juniata for continued strength into the future."

"We must get on with educating undergraduate students. I will do everything in my power to bring to this institution the strength of community that has always been one of our defining qualities."

Left to Right: Harold Brumbaugh, Elvin Kunsman, Marion Kunsman, Paul Haring, Mid Haring, Joe Good and Jane Good planted the first of 15 trees on Founders Lawn during Reunion Weekend. A tree will be planted for each of the eight men who lived on the third floor of the Cloister Arch from the Class of '33. A tree will be planted for each of their spouses as well. Funds for the project were provided by the eight men.

JUNIATA RECEIVES HIGH MARKS IN REVIEW OF ITS CERTIFICATION PROGRAMS IN EDUCATION

Juniata College received an impressive 30 commendations in a major review of its approved certification programs in teacher education. The Pennsylvania Department of Education report documented findings of an 11-person evaluation team that visited the Juniata campus in early November 1992. Teacher certification programs in Pennsylvania must be reviewed every five years.

The report indicated that "the team was extremely impressed by the staff, curriculum, program, administration and students at Juniata College. To merely say that the college is fulfilling its goal of preparing professional education personnel would be a gross understatement," the report noted. "The college and education department are to be highly commended for their efforts and commitment."

Juniata has teacher certification programs for early childhood, elementary and dual early childhood/elementary majors. The college also offers certification in nine different secondary education areas including biology, chemistry, mathematics, physics, earth and space science, general science, English, social studies and foreign language.

Among the commendations were specific references to Juniata's strong institutional support for its teacher education program, the commitment, energy, creativity and flexibility of faculty in meeting the needs of students, and the success of Juniata's dual advisor program. The team praised the education department for its "resourcefulness in creating unique programs that serve the needs of the Huntingdon area as well as the education majors."

"We feel it was an excellent review for the college as a whole and for our department," said Dr. Fay Glosenger, professor of education and chairperson of

the Juniata Education Department. "We are proud of our program's dedication to service to our students, local teachers and administrators, and the community in general."

The evaluation team specifically commended the college's commitment to field experiences which offer students "extensive, substantial and varied placements to build professional skills based on individual needs." The report also commended the college for its successful Program for Area Residents (PAR).

"The team was very impressed by our students and by the positive comments made by our local colleagues," said Dr. Glosenger. "We appreciate the support. When fellow educators value our work and see our students demonstrating the professional behaviors that we've modeled, we are very gratified."

In addition to its successful programs and students, the college received praise for its on-campus facilities. Juniata was cited in the report for its excellent science

laboratories and the wide variety of equipment for student and faculty use. The report also noted the school's new computer laboratories, its foreign language periodical collection, and an exemplary Early Childhood Education Center.

"We are reviewing a number of suggestions made in the report that would strengthen our program even more," added Dr. Glosenger. "The Department of Education has urged us to continue to consider more programs of service to the local schools. We also want to work on building the offerings in our curriculum library."

The evaluation team conducted formal interviews with nearly 40 Juniata faculty and administrators, 18 current Juniata education students, a number of recent alumni, and co-operating teachers and administrators from local school districts. The team also considered observations gathered during informal interviews with the above groups during its visit on November 4-6.

Deborah Windhorst '93 (first row, center) was the winner of the annual John M. and Thomas F. Bailey Oratorical Contest this spring. Suzy Atkins '93 (first row, right) was awarded second prize and Lisa DeChano '93 (first row, left) took the third prize. Second Row (left to right): Dr. Robert W. Neff, college president; judges Theresa Locacio, instructor at the Pennsylvania State University Beagley School of Business; Dr. Lynn Dankanich '69 tutor at the Pennsylvania State University; Dr. Arthur David, vice president of academic affairs at Lane College; and moderator Dr. Donna Weimer, assistant professor of English, Communications and Theatre Arts.

COMMENCEMENT '93

DAVINIC ADDRESSES JUNIATA GRADUATES DURING THE COLLEGE'S 114TH COMMENCEMENT

Nearly 260 seniors were awarded bachelor of arts and bachelor of science degrees on Sunday, May 9, during ceremonies marking Juniata College's 114th commencement.

The afternoon ceremonies were highlighted by the address to the graduating class presented by Dr. Prvoslav Davinic, director of the United Nations Office for Disarmament Affairs. Dr. Davinic was presented an honorary doctor of humane letters degree in recognition of his many achievements.

Samuel E. Hayes, Jr. of Tyrone, former representative of the 81st District to the Pennsylvania House of Representatives, was awarded an honorary doctor of laws degree during the ceremonies. Hayes, the House Majority Leader for 16 years, recently retired after serving the district for 22 years. He was presented for his honorary degree by Dr. Karen Wiley Sandler, vice president and dean of academic affairs at Juniata.

In presenting Dr. Davinic, a native of Yugoslavia, for his honorary degree, Dr. M. Andrew Murray, director of Juniata's Baker Institute for Peace and Conflict Studies, said, "Prvoslav Davinic is a practical and task-driven man. But his pragmatism is oriented by vision that is larger than self-interest or even national interest. It is driven by a global interest that can best be served by a system less dependent on weapons and more dependent on law.

"Born to a region marked by centuries of ethnic and political unrest, he realized at an early age what sadly much of world has still not understood," Murray continued. "That as long as we judge people by geographical, racial or religious coincidence, and not by law, we have no hope for a more peaceful and secure future."

In his commencement address, Dr. Davinic told the graduates that "in the four years since you entered this college, the world has gone through the most

Commencement Speaker Prvoslav Davinic

dramatic — I would say revolutionary — changes with far-reaching implications whose impact cannot be fully assessed.

"These changes have resulted in the complete transformation of political, economic, social and ideological structures which for years decisively determined the state of international affairs. What has happened in the relationship between the two major military powers — Russia and the United States — is truly remarkable. In one

particular area of concern to humanity related to excessive armaments that existed for so many years, particularly in the field of nuclear weapons which threatened the very survival of humanity, breathtaking progress has been made."

Davinic said, "Tens of thousands of weapons are now being eliminated in Europe and, as the result of international agreements, the two major nuclear-weapon states have mutually decided to cut their nuclear weapons by some 20,000 warheads by the end of the century. The world is definitely safer today than it was

some years ago and the 'Damocles Sword' of a nuclear holocaust is no longer hanging above our heads.

"All these elements are crucial to the forward movement of our world," he continued. "Regrettably, however, there still exist tremendous challenges, serious challenges both old and new, which are threatening to undermine the very foundation of international peace, security and stability and hinder the emergence of a new world order.

"I would single out only three of them since, in my opinion, they stand out in terms of their devastating effects not only on their respective societies, but also on the rest of the world. They are one, extreme nationalism; two, religious fundamentalism; and three, poverty and social injustice. Unfortunately, the first two evils usually occur together, sometimes even with the third, making their defeat even more difficult."

Davinic pointed to "inhumanities taking place in Bosnia, Nagorno-Karabagh, Northern Ireland, Algeria, Egypt, India and Sri Lanka — deplorable and senseless killings that cannot be justified for any reason." He continued, "As I think and talk about these kinds of tragedies, it evokes in me very personal pain and heartbreak, since I immediately recall what has happened to my own country — Yugoslavia.

"Many valuable lessons can be drawn from the very sad experience of Yugoslavia," Davinic told his audience. "I'm sure that each of you will do that from your individual and different perspectives. But what I would like you to focus particular attention on is what I believe to be deeply relevant for you, as the future generation who will be responsible for taking up the heavy burden of leadership and carrying forward: 'It is not people who are wrong!' It is that people are all too often manipulated by self-serving and dishonest leaders."

Davinic told the graduates, "As you go forth into your respective areas of endeavor — business, politics, science, medicine — I believe your greater success as an educated human being will lie in your ability to appreciate the peculiarities and differences which comprise the societies and peoples of the world. Each and every one of them is possessed of inherent cultural values and national characteristics, centuries old, of which they are proud and which call for your

Samuel E. Hayes, Jr., former representative of the 81st District to the House of Representatives (second from left); and Prvoslav Davinic, director of the United Nations Office for Disarmament Affairs (second from right) were presented with honorary doctorates at the college's 114th commencement ceremonies. Left to Right: Dr. Karen Wiley Sandler, vice president and dean of academic affairs, Hayes, Davinic and Robert Neff, college president.

Double Vision? Twin brothers, John and William Brenner of Bedford, Pa., graduated this spring with honors. Both graduates will attend law school in the fall.

Two hundred sixty seniors were awarded bachelor of arts and bachelor of science degrees under skies on Sunday, May 9. Below: H. Newton Malony, J. Omar Good Distinguished Visiting Professor, presented the Baccalaureate Address.

respect and acceptance.

"Living in today's world presents to us a paradox. While the world is growing in terms of nations and populations, it is made smaller and smaller each day by the advances of modern science and technology. In addition, these advances have also made the world more and more interdependent. No single country or group of countries can alone resolve problems ranging from environmental issues to socio-economic questions. In order to survive and prosper in this world its populations must cooperate. And, in order to cooperate, you need to understand each other and to appreciate each other's views from your individual background, culture and values."

Davinic said, "The ability to understand and accept each other comes from education, not only formal but, perhaps, more importantly, from informal education and from daily contacts and

communication with people. While you have today finished acquiring the basic academic training concerning various theories and principles about life, you are going to encounter real situations in life where you may find some of these theories to be practicable while others are not.

"My advice to you is not to get discouraged at those times but to remember that education is an ongoing process throughout our life," Davinic concluded. "The importance is to have the wisdom to draw from your experience and to have the courage to re-motivate yourself after each disappointment."

Dr. Davinic and Mr. Hayes were bestowed with their honorary degrees by Dr. Robert W. Neff, Juniata president, and the college's Board of Trustees. The commencement program was attended by nearly 2,500 guests of the college.

Four Faculty Members Honored With Teaching Awards

Four Juniata College faculty members, Dr. Ruth E. Reed, Dr. Wilfred G. Norris, Dr. James N. Roney and Dr. Donna S. Weimer, were honored Sunday with distinguished teaching awards during the college's 114th commencement ceremonies.

Dr. Ruth E. Reed, professor of chemistry, was honored with the twenty-sixth annual Beachley Distinguished Professor Award while Dr. Wilfred G. Norris, the William I. and Zella B. Book professor of physics, was named the recipient of the fifth annual Beachley Award for Distinguished Academic Service.

The sixteenth annual Lindback Foundation Award for Distinguished Teaching was shared by Dr. James N. Roney, associate professor of Russian, and Dr. Donna S. Weimer, assistant professor of communications.

The Beachley Awards were established

by Donovan R. Beachley, Sr., a graduate of Juniata in 1921 and an emeritus member of the Board of Trustees; Donovan R. Beachley, Jr., a member of the class of 1947 and a current member of the Board of Trustees; and Mrs. Donovan R. Beachley, Jr., all of Hagerstown, Md.

The Beachley Distinguished Professor Award provides a \$2,500 stipend to a professor who contributes to the development of the nominee's department and the college as a whole. Teaching effectiveness, scholarly activities, service beyond the campus, and length of service to the college are also important factors.

The Beachley Distinguished Academic Service Award also provides a \$2,500 stipend. The award is made to a professor showing outstanding service to students through advising, counseling, or development of student-related activities, and outstanding service to the college through curriculum or department development, committee activities, or college wide activities.

Nominations for the awards are received from students, faculty, administrative personnel, alumni and trustees. The final selections are made by the college president, the dean of

academic affairs, the student government president, and the three most recent recipients of the award.

The last three Distinguished Professor Award recipients have been Dr. Klaus A. G. Jaeger, associate professor of German (1992), Dr. Robert F. Reilly, professor of sociology (1991), and Dr. Linda Sue Esch, professor of mathematics (1990).

The first Beachley Award for Distinguished Academic Service was presented in 1989 to Mary Ruth Linton, professor of music emeritus. Last year's recipient was Dr. Thomas W. Woodrow, the Martin G. Brumbaugh professor of Education.

Dr. Reed came to Juniata as an assistant professor in 1976. She graduated magna cum laude from Winthrop College in South Carolina and received a Fulbright grant for study at the University of Goettingen, West Germany, before earning her Ph.D. from Virginia Tech University. From 1974 to 1976 Dr. Reed served a post-doctoral fellowship at Johns Hopkins University.

At Juniata, Dr. Reed has served as director of the Foreign Exchange Program as well as chairperson of the department of chemistry. After a year as a visiting associate

(continued on p. 20)

Left to Right: Dr. Karen Wiley Sandler, Dr. Ruth Reed, Dr. Donna Weimer, Dr. James N. Roney, Dr. Wilfred Norris and Dr. Robert Neff

professor at the University of North Carolina, Chapel Hill, she was promoted to associate professor status by the college in 1986. She was advanced to full professor in 1988.

Dr. Norris graduated *summa cum laude* from Juniata College in 1954 with a bachelor of science degree. He received his Ph.D. from Harvard University in 1963, having held the General Electric Fellowship in Chemistry at the Harvard Graduate School of Arts and Sciences. Dr. Norris completed additional study at the University of Tuebingen, the University of Maryland and the University of British Columbia.

Dr. Norris joined the Juniata physics faculty in 1958 and in 1964 was named chairman of the physics department. In 1966 he became the William I. and Zella B. Book professor of physics. In 1971 Dr. Norris became the college's academic dean, a position he held until 1977.

Funded by the Christian R. and Mary F. Lindback Foundation of Philadelphia, the Lindback award provides a \$500 stipend to the recipient. Selection criteria include contribution to the total educational effort of the college, and outstanding work by a junior faculty member who has served the college for seven or fewer years.

The award recipient is selected by the college president who is assisted by a committee of faculty members. Last year's recipient was Dr. I. David Reingold, professor of chemistry.

Dr. Roney has been affiliated with Juniata College since 1988. He has held academic posts at the University of Kentucky and Ohio State University. Prior to coming to Juniata, he served as an assistant professor of Russian at the University of New Hampshire.

Dr. Roney received his bachelor of arts degree from Dartmouth College in 1973, his master of arts degree in Slavic languages from Ohio State University in 1975, and his Ph.D. degree in Slavic literature from Ohio State in 1981.

Dr. Weimer joined the Juniata faculty in 1990 as an assistant professor of communication. She received her bachelor of arts degree in psychology from Penn State in 1974, her master of arts in speech communication and her Ph.D. in speech communication in 1983, also from Penn State.

Dr. Weimer has served as an instructor in various public speaking, communication, and rhetorical criticism courses. She served as editorial assistant for the *Quarterly Journal of Speech* from 1986 to 1990.

JUNIATA RECEIVES MANY ACCOLADES FROM MIDDLE STATES EVALUATION TEAM

Juniata College has been notified by the Commission on Higher Education of the Middle States Association of Colleges and Schools that the college's accreditation has been reaffirmed. Juniata has been accredited by the Middle States Association since 1922.

"The action taken by the Middle States Association not only reaffirms our accreditation as a private, four-year liberal arts institution," according to Dr. Robert W. Neff, president of Juniata College, "it also reaffirms our strength in teaching students.

"The evaluation team commended us on our efforts to educate responsible adults through a value-centered curriculum which links classroom teaching and learning to student experiences beyond the classroom," he noted. "They were also impressed with the genuine sense of community on our campus, a community which extends into the Huntingdon community as well."

According to the Commission's report to the college, "Community seems to be a genuine reality at Juniata. Your achievement in this regard outranks that at most institutions of which we are aware. Central to such campus unification is obviously effective linkage of the curriculum and extra-curriculum, and here you clearly know what you are doing."

The report commended the college for its strength in the areas of teaching and advising as well. "We have reviewed many of your syllabi and wish to compliment the faculty on its choices of texts, responsibilities placed upon your students, and the overall success of your teaching efforts," the report said. "This, when combined with your emphasis upon singular co-curricular events, is impressive."

"We are not left without challenges as a result of our Middle States review," according to Neff. "We must move aggressively to review and control the rapidly expanding number of course offerings and focus on our strengths as a liberal arts institution. We must also devote immediate and ongoing attention

to upgrading our instructional and plant facilities as well as making more resources available for teaching and learning at Juniata College.

"Our Middle States evaluation clearly points to our strength," he said. "With serious attention to strategic planning combined with understanding and awareness of who we are as an institution, we can become stronger," Neff concluded.

"Community seems to be a genuine reality at Juniata. Your achievement in this regard outranks that at most institutions of which we are aware."

"You are remarkable people," the Middle States report noted, "operating a complicated institution with great integrity and fiscal responsibility. We celebrate your deep devotion to the education of the whole student. And we urge you to stick to your guns as an academic institution of very high quality, indeed.

"Working together, you cannot fail. To borrow from Faulkner," the report concluded, "in the end your strengths will mean that you will 'not only endure' as an institution, you 'will also prevail.'"

Member institutions are normally reviewed by Middle States on a five-year cycle. At least once every ten years, institutions undergo a process of self-study, and submit to the Commission a Self-Study Report, which is the basis for an on-site evaluation visit. The evaluation team prepares a team report which, along with the institutional self-study and the institution's response to the team report, is reviewed by a Commission Committee on Evaluation Reports. Juniata College's next review will be in 1998.

Dr. Robert Neff, William Hershberger '50, Tom Hildebrandt '85

HERSHBERGER HONORED WITH SERVICE AWARD

The National Alumni Association of Juniata College has selected William E. Hershberger of Auburn, N.Y., as the recipient of the 1993 Alumni Service Award. The award was presented at Reunion Weekend activities held May 1 at the college.

The award is presented to the Juniata graduate who has distinguished himself in service to Juniata College.

Mr. Hershberger, a member of the class of 1950, was presented the award by Thomas M. Hildebrandt, president of the Juniata College Alumni Association. Mr. Hildebrandt, in presenting the award, cited Mr. Hershberger's commitment to his alma mater. "The Alumni Service Award is presented to you in recognition of your generous and faithful commitment to Juniata College," he said. "In the years since your graduation you have translated your love of Juniata into action and have given this college the benefit of your energy and insight."

Mr. Hershberger is the former president of Commander Electrical

Equipment, Inc., of Scarborough, Ontario. He has been actively involved with his alma mater since graduation. He served

"In the years since your graduation you have translated your love of Juniata into action and have given this college the benefit of your energy and insight."

as a volunteer in the successful Century II Campaign and has been a member of the President's Development Council and the Alumni Council. Mr. Hershberger was named to the Board of Trustees in 1989. In 1991 he served as the chair of the college's Annual Support Fund.

Mr. Hershberger and his wife Marlene,

have also been strong supporters of the college's scholarship fund. Most recently, they assisted students at the college by establishing the George E. and Alma Hershberger Scholarship Fund, which honors Mr. Hershberger's parents.

In reading from the citation presented to the recipient, Mr. Hildebrandt said, "A leader on campus as a student, you have continued to use your talents to help shape the present and build the future of Juniata College. You have served on the Board of Trustees, the Alumni Council, the President's Development Council, as a campaign volunteer and while serving as Alumni Trustee, you accepted the additional responsibility of chairing the Annual Support Fund. You have taken time from your busy schedule and traveled many miles to represent the college at alumni events.

"Your presence has enriched the life of Juniata College," he concluded, "and the Alumni Council is privileged and proud to present you with the Alumni Service Award for 1993."

CHRISTOPHER UMBLE '74 NAMED PRESIDENT OF THE NATIONAL ALUMNI ASSOCIATION

Christopher W. Umble of Pittsburgh, Pa., recently assumed the presidency of the National Alumni Association of Juniata College. Thomas M. Hildebrandt, outgoing president, presented the gavel to Mr. Umble at the association's annual spring meeting.

Mr. Umble, a 1974 graduate of Juniata, holds a bachelor of arts degree in fine arts. Since graduating he has served as executive director for the Huntingdon Tourist Promotion Agency from 1974 to 1977, executive director for the Huntingdon County Business and Industry from 1977 to 1980, and assistant director and director 1986. Mr. Umble is currently the director of marketing communications or PPG Industries, Inc. of Pittsburgh.

Mr. Umble has been a member of Juniata College's President's Development Council (PDC) since 1985. He has completed two previous terms on the alumni council, the first from 1979 to 1982 and again from 1988 to 1991. He was re-elected to the council in 1992 and will serve this term until 1995.

Mr. Umble has also served Juniata as a reunion co-ordinator from 1988-89, an annual support fund chair from 1980-81 and as a volunteer for the college's Century II Campaign from 1985-86.

In addition, the following members of the alumni association have been appointed as council members-at-large:

Bert J. Altmanshofer '81, of Hollidaysburg, Pa.; Janet E. Grayson '78, of Lithonia, Georgia; Mary E. Hoover '39, of York, Pa.; Nancy Davis Peters '65, of Vienna, Virginia; John C. Richman '53, of Novato, California; Kathleen R. Salmon '67, of Mechanicsburg, Pa.; and Ronald N. Seiler '77, of Souderton, Pa.

Lynn L. Merritt '90, of Baltimore, Md. has been appointed alumni council representative to the Juniata College Board of Trustees.

Tom Hildebrandt '85 (right) presents the gavel to Christopher Umble '74, 1993-94 president of the National Alumni Association.

New Alumni Council members in attendance for the spring meeting were left to right: Janet E. Grayson '78; John C. Richman '53 and Lynn Merritt '90. Merritt has been appointed alumni representative to the Board of Trustees.

NATIONAL SCIENCE FOUNDATION \$1.78 MILLION GRANT LARGEST IN JUNIATA HISTORY

The awarding of a \$1.78 million grant to Juniata College by the National Science Foundation (NSF) has extended the impact of Juniata's "Science in Motion" project into the Monongahela Valley, south of Pittsburgh. The grant, the largest in the school's history, will support the continued expansion of the nationally acclaimed project.

The Science in Motion project provides service to 50 school districts in rural central Pennsylvania and in the Monongahela River Valley region of Pittsburgh.

The NSF grant is helping Juniata expand its outreach program in the central Pennsylvania region to include high school biology and junior high science as well as high school chemistry.

In addition to providing access to modern scientific instrumentation through mobile Science in Motion vans in each region, the project provides training and support to nearly 250 teachers of high school chemistry and biology as well as junior high school.

"We are working with teachers and school officials to transform science education in school districts in these two regions of Pennsylvania," said Dr. Donald Mitchell, professor of chemistry at Juniata and director of the science outreach program. "The goals are to upgrade the knowledge and skills of science teachers, to provide increased access to modern instrumentation and to achieve greater use of hands-on instruction.

"While the goals have remained the same since we first began in 1985, the breadth of the project continues to grow. The support we have received from NSF is certainly critical to our ability to reach greater numbers of high school students and teachers," Mitchell added.

The project in central Pennsylvania involves some 25 high schools. In both regions combined, training and support is provided for teachers of high school chemistry, high school biology and junior high science representing 50 schools.

Activities include summer workshops for both chemistry and biology teachers, summer-long research or curriculum

development opportunities, special one-day seminars, and annual science fairs for students from project schools.

The most recognized contribution, however, remains the in-school support offered by the science vans, which operate daily during the school year to service each region. Associate project directors Thomas Ferko, in the Mon Valley project, and Sherri Walk, in the central Pennsylvania project, transport high tech equipment for use by science teachers and students. The associate directors also assist in the preparation and teaching of labs in the school classrooms.

"While the vans are the most visible aspect of the program, each project is designed to be a total support system for

teachers involved," said Mitchell. "A major goal is to develop a network of well-trained science teachers and science conscious administrators. We also are attracting talented students to careers in science, and we are improving science literacy among all students in general."

The original Central Pennsylvania Chemistry Teachers Science Education Improvement Program, known as the Science in Motion Project, was formed in 1985 through a partnership between Juniata's chemistry department and the regional association of chemistry teachers. Giving high school teachers and students access to the theories and technology of contemporary science is at the core of the "Science in Motion" program.

Juniata alumnus William Fegan '48 presented Dr. Robert W. Neff, college president with an oil painting of Esther Doyle, Charles A. Dana Professor of English, Emerita, during the Reunion Weekend activities in May. The portrait will be displayed in a prominent place on campus.

Calvert Ellis Recognized By Juniata College Community

Dr. Calvert N. Ellis, president of Juniata College from 1943 to 1968, was recently recognized on the golden anniversary of his ascendancy to the presidency of the college. The recognition event was attended by over 225 faculty, administrators and trustees of the college.

As part of the recognition testimonials were presented by Dr. John C. Baker, a member of the class of 1917 and 57-year member of the Board of Trustees at the college; Dr. David W. Ellis, son of Dr. and Mrs. Ellis and former president of Lafayette College; Dr. Esther M. Doyle, a Juniata faculty member from 1945 to 1975; Harold B. Brumbaugh, vice president emeritus at the college and longtime friend to Dr. Ellis; and Dr. Robert W. Neff, current president of the college.

"President Ellis' achievements, with those of Mrs. Ellis, were such that they not only preserved admirable stability in the college during a stormy period, but also changed it from being little known, to a nationally recognized college with steadily increasing support."

— Dr. John Baker

Dr. Ellis was also presented a citation from the State of Pennsylvania marking the anniversary. The resolution was read and presented by Larry Sather, Pennsylvania state representative.

In his introductory remarks, master of ceremonies Klare Sunderland, chairman of the Board of Trustees, outlined the former president's distinguished career. "Calvert N. Ellis grew up in the shadow of Juniata College," Sunderland stated. "Having graduated from the college in 1923, he returned to the college in 1931 when he accepted a position on the faculty, teaching religion and philosophy.

"When he joined the faculty, Dr. Ellis had no intention of remaining for any great length of time. Twelve years later," Sunderland continued, "when his father, Charles C. Ellis retired from the

Dr. Calvert N. Ellis was recognized by the Juniata College community this spring on the golden anniversary of his ascendancy to the presidency of the college. Dr. Ellis and wife Elizabeth, shared some memories with the 225 guests present for the dinner.

presidency, Dr. Ellis was still on campus. When the presidential search committee unanimously selected Dr. Ellis as the next president of Juniata College, he turned them down. After much pressure from the Board of Trustees he eventually accepted and in 1943 began a quarter of a century of leadership in education that spread far beyond Juniata's boundaries. His presidency transformed the campus as no other had."

President Ellis received the M.A. degree from Princeton University in 1927. He was graduated from Princeton Theological Seminary in 1927 and

received the Ph.D. degree from Yale University in 1932. Dr. Ellis completed additional study at Harvard and at the University of Zurich, Germany. Dr. Ellis is an ordained minister of the Church of the Brethren.

Dr. Ellis taught in the Lewistown High School and at Slippery Rock College. During the year 1927-28 he served as the instructor in English Bible at Wilson College. In the autumn of 1931 he returned to Juniata as assistant professor of biblical studies, holding the Mary S. Geiger Chair. In 1934 he was advanced to full professor and became the professor of biblical studies and philosophy.

Dr. Ellis traveled and studied abroad

Dr. Esther Doyle

Dr. John Baker

Dr. David Ellis

extensively. In the summer of 1928 his travels included the British Isles, France, Switzerland, Italy, Egypt, and Israel. During the autumn semester of 1930, he was in Germany and Switzerland where he observed the philosophical and theological movements in Germany, and particularly the work of Karl Barth, before returning to the United States to continue his studies.

Dr. Ellis has influenced the course of higher education at the regional and national levels. His influence was felt in the Association of American Colleges, the Middle States Association of Colleges and Schools, the Pennsylvania Association of Colleges and Universities, and the Higher Education Advisory Committee to the Education Compact of the United States.

In summing up the career of Dr. Calvert N. Ellis on the occasion of his retirement in 1968, Dr. John Baker, then chairman of the Board of Trustees, said, "Dr. Ellis's administration covered many of the most critical years in the history of American education. One world war and several smaller wars; too few students, too many students; Sputnik, with the upgrading of all education; changing social mores; restlessness among faculty and students; faculty shortages; inflation with its attendant financial problems; government aid and involvement and a host of other issues beset him.

Harold Brumbaugh with Dr. and Mrs. Ellis

"These were indeed exacting times," Baker said, "and any president who succeeded in guiding his institution through this era successfully merited high praise.

"President Ellis' achievements," he added, "with those of Mrs. Ellis, were such that they not only preserved

Pennsylvania State Representative Larry Sather presented a citation from the state of Pennsylvania to Dr. Ellis.

admirable stability in the college during a stormy period, but also changed it from being little known, to a nationally recognized college with steadily increasing support."

Dr. Calvert and Elizabeth Ellis have been residents of the Brethren Village in Lancaster since 1987.

JUNIATA REMEMBERS MARTIN LUTHER KING, JR. AND THE CIVIL RIGHTS MOVEMENT

The story begins with a quote from a newsweekly "Like the lame to Lourdes they came — bishops, rabbis, ministers, priests, and nuns — several thousand in all, sensing somehow that God was stirring up the waters in Selma, Alabama."

"Brethren and the Civil Rights Crisis," is an article that appears in the May 13, 1965 edition of *The Messenger Magazine* and focuses on the few who dared to become involved in the violence in Selma, Alabama.

It includes several testimonials by members of the Church of the Brethren who witnessed the struggle for human rights in Selma, and points out, "Among Brethren-related colleges, the most intensive response to the civil rights crisis came at Juniata.

"Eighteen students and professors were in Montgomery on March 16 when the mounted posse rode into a group of demonstrators. Two of the college faculty were injured...On the following weekend, some sixty students and members of the faculty joined a student protest rally and picketing at the White House in Washington, D.C. In addition, two thirds of the college community petitioned their legislators for further civil rights action."

The article continues, "James H. Lehman, a Brethren youth from Manheim, Pa., said as he was installed as the new student Senate president the day after his return from Montgomery, 'There is a new spirit in the air at Juniata. The college is shedding its shell of reserve and sometimes cynical complacency. Emerging is a student body that is open, enthusiastic, willing to get involved, willing to take the risk to get educated, willing to commit themselves to something beyond their self-interest.'"

His classmate John G. Fike, when asked if he could justify missing classes for the Montgomery visit added to the story, "To one involved in the process of getting a liberal arts education at Juniata,

This photo, first published in Life Magazine, captures Juniata student Harriet (Richardson) Michel '65 wiping blood from poet-in-residence Galway Kinnell following an attack from law enforcement officials in Montgomery, Alabama in 1964.

this question is a sophomoric one...One of the purposes or designs of such education is not only to educate a student in many areas, but to involve him in these disciplines. Studying discrimination from a textbook is one way of understanding; really knowing by direct confrontation and involvement and decision and sacrifice is a more ultimate way of knowing, and one that every human being must be prepared to engage in if he or she is to have answers to this or any other problem with which he or she is confronted."

A photograph of Juniata student Harriet Richardson and poet-in-residence, Galway Kinnell accompanies the story in *The Messenger*. The photo, a reprint from *Life Magazine*, captures Richardson wiping blood from Kinnell's face following an attack by law enforcement officials in Montgomery.

Harriet Richardson Michel '65 returned to campus this January to share her experiences with Juniata students, faculty, staff and members of the larger regional constituency. Michel was the keynote speaker for the "Celebration in

Recognition of Martin Luther King, Jr."

She said to the more than 500 members of the audience, "My comments today are not a scholarly treatise on race relations in the United States, but rather, they are personal observations and thoughts of an African-American who's spent her life on a journey guided by the unseen star of justice, fairness, equality and hope.

"Juniata's observance of Dr. King's birthday holds personal meaning for me because 28 years ago I, with a few activist faculty members led a small band of frightened, but committed students from this campus to Selma, Alabama to join Dr. King's fight for racial justice."

She continued, "As one of the very few blacks on campus, I spent endless hours during my four years here, both in and out of the classroom trying to sensitize my classmates, and some faculty I might add, to the hopes, fears and aspirations of black people...trying to make us seem more familiar and less exotic.

"I was constantly challenging the status quo and insisting on the validity of the black perspective. I'm certain I was considered dogmatic by some, and a pain in the neck by many others, but I saw myself as an agent of change," she explained.

"The decision to take off for Selma was overwhelmingly *unpopular*, especially to the administration who worried, understandably, about our safety.

"There were pleas and threats from classmates, faculty, President Ellis and our parents. One story that has never been told concerns my own mother's response to my actions. I never gave it a thought that she would disapprove of my going, but since I was a first generation college graduate in my family and I was a senior, close to graduation, my mother when I called to tell her, insisted that I not go. For the first time in my life, I openly defied my mother, and I said, 'Mom I gotta go,' and go we did."

Michel continued, "And when we got there our participation was vividly recorded in several pages of *Life* magazine and on television newscasts as men on horseback chased us down and beat us with vicious billy clubs.

"I can't speak for my fellow travelers, but the experience of packing into stifling hot churches nightly, hearing the majestic voice and message of Dr. King, while outside lurked men who would threaten our lives because we were peacefully demanding justice, was something I shall never forget.

"The collective action of thousands of students like us," she continued, "combined with others...black and white, men and women, young and old, jew and gentile, clergy and laymen..moved America to action, resulting in the most progressive civil rights legislation passed in this century."

Michel went on to say that while there were solid accomplishments made during that period, there were two major shortcomings, which impact attitudes today. The civil rights movement was too short lived, lasting less than 20 years. Furthermore, "despite the claim of conservatives that great society programs robbed people of initiative and created what they call a victim mentality, the monies committed to training the poor, and providing opportunities for jobs and businesses, were never sufficient."

Michel pointed out that the civil rights movement produced new problems as well. "A backlash of resentment developed among many whites who became anxious and threatened by the challenge to their traditional position of advantage and privilege," she explained.

"...while the new laws and programs through affirmative action provided

institutional access, they did nothing to challenge the traditional standards, values, and definitions that institutions used to judge, promote or reward their members," she continued. "Most of the conventional thinking and behavior of institutions remained intact. Therefore, the majority culture continued to define each minority group based on existing prejudices and misconceptions."

"As one of the very few blacks on campus, I spent endless hours during my four years here, both in and out of the classroom trying to sensitize my classmates, and some faculty I might add, to the hopes, fears and aspirations of black people...trying to make us seem more familiar and less exotic."

She observed, "Since 1964 the country had developed and refined a body of constitutional, statutory, and regulatory approaches designed to exorcise the existence and effects of the racism, sexism, and homophobia so deeply entrenched in our society. From that time until 1981 all of our presidents, to greater or lesser extent, contributed to that effort...recent Republican administrations broke with tradition and in many instances represented a 180 degree shift from the position of their predecessors..."

Citing several examples, Michel said, "During the past 12 years racial politics was developed into a high art form. Apart from some blatant Willie Horton episodes, racial references tended to be conveyed in nuances and codes including illusions to crime and comments on quotas..."

Michel called attention to the fact that the black-white problem is not the only ethnic flashpoint in America. "Other ethnic tensions pervade our society and must be addressed. The problem between blacks and Asians in New York, or Hispanics and Asians in Los Angeles, or whites and Hispanics in the southwest suggest that misunderstandings riddle the relations between all the ethnic

groups in America...Regrettably, race has made America its prisoner since the first slaves landed on these shores."

She continued, "We are hardly the only nation to perpetrate racial prejudice and ethnic bigotry. Witness the abominable stories of the ugly rise of nazism in Germany and Scandinavia, ethnic cleansing in the former Yugoslavia and the growing popularity of the national front party in France whose motto is 'France for the French.'

"Yet of all the world's nations, the United States speaks most eloquently of universal justice and equal opportunity so it must set a higher standard for human life and racial harmony," she said.

"...despite all the changes and advances, W.E.B. DuBois's troubling observation in 1903 remains true in his book, *The Souls of Black Folk*, that the problem of the 20th century is the problem of the color line — 87 years later: the color line still divides us," she continued.

"At a time when the black middle-class is expanding and black politicians are gaining new influence and power, racial misunderstanding and conflict seem to be growing. Blacks and whites perceive and experience the world in radically different ways, and except for an increasingly integrated workplace, society remains largely divided in housing, schooling, and socializing. The problem is especially severe in America's cities, where racial tensions too often flare up into ugly, indeed, violent incidents."

According to Michel, while economic and social trends account for much of the recent deterioration in race relations, another reason looms large: there is no national consensus on race issues today. No consensus exists, for example, on what to do with the real and pressing problems of poverty and institutionalized racism. "National leaders offer little more than platitudes about racial justice and are deeply divided over the role of government in rectifying the consequences of discrimination," she explained.

"This stalemate at the national policy level created increasing levels of anger and fear in black communities across the country.

"It matters less to blacks that 30% of them had 'made it' into the middle class, what mattered more was the nearly 30% who were stuck in a morass of poverty, crime and drugs known as the *underclass*," she said. "Moreover, even the

Harriet Michel, a Juniata College trustee, returned to campus to speak at the college's annual Martin Luther King, Jr. Convocation.

most successful blacks understand that in this currently racially charged climate, middle class or underclass a nigger is still a nigger and more whites are emboldened to say so."

According to Michel, the riots last summer in Los Angeles, while shocking, were predictable to anyone attuned to the black community. The outrage and indignity of the Rodney King jury verdict ignited hostilities which had long been simmering just below the surface, not only in Los Angeles, but in other cities like Kansas City, Milwaukee, Seattle and Toronto, Canada where racial strife was far less apparent.

"The increasing incidents of violence against blacks by police and average white citizens, the growing sense of vulnerability among blacks as evidenced by diminishing quality of life factors like increased infant mortality rates, decreased life expectancy rates, shrinking college enrollment and completion rates, limited access to credit, loans, mortgages and on and on has forced the black community at all levels to search even deeper for solutions which are designed, driven, and yes increasingly funded by themselves. It is generally held that blacks don't know anything about self help. We're one community that doesn't hang together and we don't help one another," she said.

"I'd just like to say to you that self help is a long and noble tradition in the black

community. There is hardly any black church in this country, any black organization that has not scraped their pennies together and made sure that its youngsters are able to go to college, to raise scholarship funds, to provide day care centers, do whatever they can — so it is a misnomer, it is inaccurate to believe that it has never been there, that we are not prepared, and willing, and able to help ourselves," Michel explained.

Michel noted that blacks *cannot* and *should not* solve these problems alone. She said, "Race is America's problem, one that has been too long ignored by most of her citizens, one that will lessen her moral authority on the world stage, one that will limit her ability to compete in the global economy."

According to Michel, any significant improvement in race relations depends on changing the attitudes of whites. She

"The question for each of you today - students, faculty, administrators, the college community as a whole - is where will you stand? What will you do to bring this society back together?"

cited several perceptions held by whites that blacks must constantly fight.

She said, "I have spent all of my professional life, all of my career since leaving Juniata, working in various ways and in various settings to overcome the misperceptions and suspicions ethnic and racial groups have of one another.

"I continue to speak out against injustice and press for change because I believe purpose without passion lacks power.

"Dr. King said, 'The measure of a man is not where he stands in moments of comfort and convenience, but where he stands at times of challenge and controversy.' Well, with regard to race relations these certainly are times of challenge and controversy. But times of challenge and controversy are also times of extraordinary opportunity...a time when fresh perspectives and new ideas are most needed."

She continued, "The question for each of you today - students, faculty, administrators, the college community as a whole - is where will you stand? What will you do to bring this society back together?"

"Unlike other social problems - homelessness, drugs, poverty - where we may be concerned but feel overwhelmed and unable to fashion solutions, better race relations is something each one of us can do something about.

"It won't be solved in the laboratory like cancer or AIDS it will only be solved with each of us taking ownership for making it better. For ensuring a better common destiny."

She concluded by saying, "I'd like to leave you with a quote from the late Whitney Young, president of the National Urban League. 'I do have faith in America not so much in a sudden upsurge of morality nor in a new surge toward greater patriotism. But I believe in the intrinsic intelligence of Americans. I don't believe that we forever need to be confronted by tragedy or crisis in order to act. I believe that the evidence is clear. I believe that we as a people will not want to be embarrassed or pushed by events into a posture of decency. I believe America has the strength to do what is right because it is right. I am convinced that given a kind of collective wisdom and sensitivity, Americans today can be persuaded to act creatively and imaginatively to make democracy work. This is my hope, this is my dream, this is my faith.'"

ESCH NAMED DANA PROFESSOR AT JUNIATA

Dr. Linda Sue Esch, professor of mathematics and computer science at Juniata College, has been named the college's Charles A. Dana Supported Professor of Mathematics.

Dr. Esch is one of five Dana supported professors at Juniata. The Dana Foundation specifies that the recipient of the supported professorships be a faculty member of outstanding teaching ability and scholarly attributes.

In the nomination letter presented to the Board of Trustees Dr. Esch was commended for her work within and beyond the classroom. "In her many years," the nomination read, "she has served on almost every committee, making her influence felt in curricular decisions as well as faculty development and student academic development.

"She is a tireless advocate for students, opening avenues for student learning and growth in unforeseen ways. In the classroom she is demanding, supportive, creative and energetic. She provides a role model of liberal learning in her willingness to take on new projects, to step outside her own field of mathematics to become a master teacher in computer science and in the general education program."

Dr. Linda Sue Esch

In letters of support for the nomination of Dr. Esch, her colleagues referred to her as a "dynamic lecturer who impressively weaves her material into a clear, coherent presentation which conveys information and insights as it challenges

further thought and discussion."

Still another faculty member commented on her general contributions to the campus community by referring to her as "a mainstay of Juniata College. She genuinely cares about this college and its students. Her record as teacher and advisor is exemplary, and her unselfish service to the college is extensive and effective."

Dr. Esch joined the Juniata faculty in 1976 as an assistant professor. She was promoted to associate professor in 1980 and advanced to full professor in 1985.

Dr. Esch was honored in 1979 as the recipient of the Lindback Foundation Award for Distinguished Teaching and again in 1990 as the recipient of the twenty-third annual Beachley Distinguished Professor Award.

Dr. Esch received her B.S. degree with honors from Juniata College in 1968. She earned her M.A. and Ph.D. degrees from Boston University where she served as an instructor from 1970 to 1974. After serving two years as an assistant professor at Colgate University, Dr. Esch joined the Juniata faculty.

A native of Altoona, Pa., Dr. Esch is a member of the Mathematics Association of America.

The Juniata College chapter of Habitat for Humanity sponsored a Shack-a-thon on April 3. Students set up a homeless "community" on the lawn and slept in cardboard boxes and other makeshift shelters for a 24 hour period.

RASSIAS METHOD EXAMINED AT JUNIATA COLLEGE

John Rassias

As pressure increases on providers of goods and services to achieve broader understanding of the global marketplace and the global economy, the ability to cross language barriers is becoming a vital component to success. With the majority of language students in America achieving only minimal oral fluency regardless of the number of years they study, change is clearly called for.

Change was recently examined at Juniata College during an intensive three day workshop on the innovative Rassias Method for teaching foreign language. The workshop was held March 19 - 21.

The sessions were conducted by John Rassias, the William R. Kenan professor of French at Dartmouth College, and his associates. The Rassias Method is being successfully used at hundreds of colleges, high schools, and elementary schools in the United States and abroad.

The goal of the Rassias Method is to make the student feel comfortable and natural in a very short period of time with the language they are studying. This is accomplished through a specific series of teaching procedures and dramatic techniques which seek to eliminate inhibitions and create an atmosphere of free expression from the very first day of class.

The Rassias Method calls for a high degree of student involvement which

includes an average response rate of 65 times per hour per student. Emphasis is placed on practical application of the language to the student's own life and experience.

The model has at its core the use of qualified advanced students, known as assistant teachers (ATs). The ATs are carefully trained in the techniques of the method and assist in teaching the beginning language courses. Students work in small group settings where the ATs provide reinforcement and review for the larger master classes taught by the instructor.

John Rassias, the originator of this highly effective approach to teaching languages sometimes referred to as the Dartmouth Intensive Language Model, was a member of President Carter's Commission on Foreign Language and International Studies. Rassias developed the method of teaching while training Peace Corps volunteers in the early sixties and adapted it to Dartmouth undergraduate instruction in 1967.

The workshop, jointly sponsored by Juniata College and the college's Department of Foreign Languages, was attended by teachers at the high school and college level from across Pennsylvania, Delaware and Connecticut.

OVER 1,300 STUDENTS VISIT JUNIATA FOR PENNSYLVANIA SCIENCE OLYMPIAD AND DISTRICT HISTORY DAY EVENTS

Nearly 1,100 students representing 60 Pennsylvania elementary, junior and senior high schools participated in the Pennsylvania Science Olympiad at Juniata College on April 23. Four weeks earlier, approximately 250 junior and senior high school students from eight central Pennsylvania schools visited the Juniata campus for the eighth annual District History Day.

Students in the Science Olympiad competed in 32 events testing their knowledge of biology, earth science, chemistry, physics, computer skills, and technology. Juniata was chosen as the site for the Pennsylvania competition in part because of its recognized and ongoing commitment to the teaching of science. The second annual event was sponsored by Juniata College, the Pennsylvania Science Supervisors Association (PSSA) and the Pennsylvania Science Teachers Association (PSTA).

The Juniata History Department hosted the District History Day, which featured the theme "Communication in History." The Juniata History Department was originally approached to take charge of the district competition by the Pennsylvania Historical and Museum Commission in 1986. A number of Juniata faculty and students served as judges for this year's competitions.

Visiting students, teachers and guests for Science Olympiad and History Day had opportunities to tour the Juniata campus, attend classes and have lunch.

**READ CLASS
NOTES!**

CAMPUS BRIEFS

Doug Glazier, professor of biology, and two alumni, Mike Horne '91 and Mary Lehman '91, recently had a paper published based on their research at Juniata during 1990-91. "Abundance, Body Composition and Reproductive Output of *Gammarus minus* (Crustacea: Amphipoda) in Ten Cold Springs Differing in pH and Ionic Content" was published in *Freshwater Biology* (vol. 28, pp 149-163).

Ibrook Tower, associate professor of music and director of instrumental music, presented a workshop on single reeds at Juniata Valley High School in November and served as adjudicator for the Nittany Valley Symphony Orchestra Young Soloists Competition in State College on January 24.

On May 1, 1993, he performed with Tommy Newsom, former assistant leader of Johnny Carson's Tonite Show Band, in a benefit for the Peabody Institute of The Johns Hopkins University.

Deb Kirchhof-Glazier, professor of biology, received the Outstanding HOSA (Health Occupations Students of America) Advisor Award of Merit from the National HOSA Office at the State Leadership Conference held in November; she was also recently nominated to receive an appointment as a clinical associate to the Department of Pathology's clinical faculty at Harrisburg Hospital.

Glazier presented a paper on "Peace Studies Through Biology: an Interdisciplinary Mini-Course" at the annual meeting of the Peace Studies Association on March 11.

Duane Stroman, professor of sociology, attended a conference, "Managed Care for Mental Health: Promise or Problem for Pa." on January 16 in State College. The conference was supported by Pa. Protection & Advocacy, the state agency that protects those with developmental disabilities.

Henry Thurston-Griswold, assistant professor of Spanish, recently had an article published in *Romance Quarterly*. The study, titled "Idealist Bashing in the Early Novels of Juan Valera," appears in the November issue (vol. 39, num. 4, pp. 467-474).

Four members of the Juniata College staff were honored during the annual Founders Day Tea on April 16. The event celebrated their years of service to Juniata and the 117th anniversary of the college's founding.

(From left to right) Beverly A. Simpson, Business Services Office Assistant, was recognized for 10 years of service while Dr. Henry G. Masters, Associate Professor of Psychology; Dr. James L. Gooch, Professor of Biology; and Verna F. Horne, Humanities Faculty Secretary, were each honored for 25 years of service.

He delivered a paper titled "El abuso del poder en Elsombrero de tres picos" at the annual convention of the Northeast Modern Language Association in Philadelphia on March 28.

Arnold Tilden, vice president for educational planning and student services, along with **Duane Stroman**, presented a paper on "Creating an Assessment Culture" at the annual meeting of the Higher Education Data Sharing Consortium. This organization is comprised of roughly 100 private colleges and universities across the country who share data for the purposes of advancing planning in higher education. This presentation traced Juniata's assessment efforts which were focused in the reaccreditation process and are being sustained by the Assessment Resource Team. Fourteen different assessment efforts sponsored by ART this fall were highlighted.

Keith Mann, assistant professor of geology, recently co-authored a research paper on the effects Central American (Panama) deforestation on coral reefs: Budd, A., K.O. Mann and Guzman, H.M. 1993. Environmental interpretation using insoluble residues within reef coral skeletons: problems, pitfalls and preliminary results. Coral Reefs 12:1-12. The National Geographic Society funded this research.

During winter break, Mann spent ten days on Sal Salvador, Bahamas, with Dr. Lee Gray (Mount Union College; Alliance, Ohio) and Dr. Rick Fluegelman (Ball State University; Muncie, Indiana) studying and collecting materials from the geologically recent (Pleistocene 1,600,000 - 10,000 years) rock record and the modern carbonate environments. The project was funded by a grant from the National Science Foundation.

Mann organized and conducted the symposium, "Graphic Correlation: the Method and its Application," at the Geological Society of America

Northeastern Section meeting in Burlington, Vermont.

In February, Dr. Mann co-authored a research paper titled, "Agricultural Land Use and Nitrate Cycling in Surface Water in Northeast Iowa," pp. 1-6 in *Agricultural Research to Protect Water Quality*, by the Soil and Water Conservation Society in Minneapolis. This project was funded in part by the U.S. Environmental Protection Agency Nonpoint Source and Pollution Prevention Programs.

The Society of Economic Paleontologists and Mineralogists (SEPM), has requested that Dr. Mann edit a book on graphic correlation based on the Graphic Correlation Symposium. SEPM, an international society, is the largest society of sedimentary geologists.

Peter Peregrine, assistant professor of anthropology, had an article titled, "An Archaeological Correlate of War" published in *North American Archaeologist*, Volume 14, pp. 139-151.

He also gave a colloquium talk on "World-System Archaeology" at the University Museum, University of Pennsylvania, on January 29.

Peregrine delivered a paper titled "The Birth of the Gods Revisited: A Partial Replication of Swanson's (1960) Cross-Cultural Study of Religion" at the annual meeting of the Society for Cross-Cultural Research in Washington D.C., on February 19.

Dr Peregrine was co-organizer of the 1993 Society for Economic Anthropology meetings, held at the University of New Hampshire on April 23-24, 1993. He also chaired a session and delivered a paper titled, "World-System Contact and Social Transformation." During the meetings Dr. Peregrine was named editor of the society's newsletter

From March 3-5, **Alex McBride**, professor of painting and photography, took part in a program review at Seton Hill College, Greensburg, Pa., for the Pennsylvania Department of Education. His responsibility was to ascertain that the art education department's certification program met the state's standards.

McBride has had seven of his "China Photographs" published in the first edition of *KESTRAL: A Journal of Literature and Art in the New World*. The journal is published by Fairmont State College, Fairmont, West Virginia. In relation to the publication of his photographs, he was invited to exhibit his work at the

KESTRAL WRITERS CONFERENCE in Fairmont from March 31 to April. He also served as a visiting artist meeting with Fairmont State College's art classes and discussing the relationship of art and photography.

The Lila Wallace Readers Digest Foundation has funded a grant proposal written by **William Hofelt**, associate professor of English. The grant will provide funding for a visiting writer-in-residence during the 1993-94 academic year. Juniata is one of only 18 colleges and universities in the United States to receive the grant. The writer-in-residence will spend approximately five weeks on campus next year. The English, Communications and Theatre Arts Department is currently considering candidates for the assignment.

Most recently, Professor Hofelt had a short story titled, "Is That What You Call It?" published in *The MacGuffin*, volume X No 1, Spring 1993.

Kim Richardson, associate dean and director of international programs, wrote an article in 1987 for the *Reading Teacher*, one of the journals of the International Reading Association. That article, titled "Shakespeare for the Elementary Classroom" appears in *Teacher to Teacher: Strategies for the Elementary Classroom* a book which was published in February, 1993, and edited by Mary Olson and Susan Homan.

Fay Glosenger, professor of education, joined the PA Department of Education Review Team that visited Chestnut Hill College March 15-17. She reviewed Chestnut Hill's certification program in early childhood education.

Karen Wiley Sandler, vice president and dean of academic affairs, was the featured speaker at a day-long conference on Writing-Across-the-Curriculum at the University of Rhode Island on March 23.

Sandler also participated in a Dean's Exchange with Lane College, an historically black liberal arts college in Jackson, Tennessee from March 9-13. This exchange is sponsored by a grant from the Council for Independent Colleges. Lane College's Dean, Dr. Arthur David, visited Juniata for three days in April.

Bill Martin, assistant dean of students

and director of career planning and placement, will be included in the forthcoming 4th edition of Marquis *Who's Who in American Education*.

Ei-Ichiro Ochiai, professor of chemistry, had his article "Ideas of Equality and Ratio-Mathematical Basics for Chemistry and Fallacy of Unitary Conversion" published in the *Journal of Chemistry Education*, 70, 44-46 (1993).

Mary Taylor, assistant dean/director of academic support services, served as adjudicator for a Black History Month poetry contest at the State Correctional Institution in Smithfield.

Michael Henderson, assistant professor of French, participated in a workshop in oral proficiency testing conducted by the American Council on the Teaching of Foreign Languages from March 15-19 in Miami, Florida. He has also been accepted into an NEH Institute on "Literature and Modern Experience in Africa," which will take place July 12 - August 21 at the Ohio State University in Columbus, Ohio.

Donna Coleman, associate professor of music, gave concerts in Southern California during the week of February 1-14, 1993, including performances at: University of California at San Bernardino, University of LaVerne, University of California at Riverside, California State University at Dominguez Hills, and the University of San Diego.

Her compact disc recording of Charles Ives' *Piano Sonata No.1*, released in November 1992 by ETCETERA Records of Amsterdam, Netherlands, is for sale at the Juniata bookstore.

In June, Coleman will record Daniel Perlango's brand new *Piano Concerto* which he wrote for her with the symphony orchestra of BRATISLAVA, SLOVAKIA, for compact disc on the Composer's Recording Society label.

David Sowell, associate professor of history, has contributed the chapter "The Mirror of Public Opinion: The Image of Sim n Bol var in the United States Press, 1825-1831" to a forthcoming book on Bolivar. His review of David Collier and Ruth Berins Collier's *Shaping the Political Arena: Critical Junctures, the Labor Movement, and Regime Dynamics in Latin America* was published in the February number of the *Hispanic American Historical Review*.

Sowell presented a paper on "State and Society in Colombia: The Role of Artisans" to the annual convention of the Middle Atlantic Conference of Latin American Studies in State College on April 3.

David Hsiung, assistant professor of history, presented his paper, "Community in Antebellum Appalachia," at the Annual Appalachian Studies Conference in Johnson City, Tennessee, on March 20. He also served as a judge for the annual Carl Ross Student Paper competition.

Chuck Yohn, director of the Raystown Field Station, was invited to give the opening address to the 70th annual meeting of the Eastern Bird Banding Association in Painted Post, NY on April 2, 1993. The title of Chuck's address was "Decline of Migrant Songbirds; Patterns, Process and Response."

Drs. Ray Pfrogner and **Norm Siems** of the physics department, recently attended the annual combined meeting of the Central Pennsylvania Section of the American Association of Physics Teachers and the Society of Physics Students at Albright College. Dr. Pfrogner made two presentations, "A Demonstration of Chabay's Award-winning Software: Electric Field Hockey" and "Newton vs. Murphy - A Spectacular Demonstration." As Section Representative, he reported during the business meeting on the plans and activities of the national organization. Further, he was presented with the coveted Distinguished Service Award for years of dedicated, enthusiastic service to the Section.

October 29-31
Don't Miss It!

REVEREND W. CLEMENS ROSENBERGER WILL CHAIR JUNIATA FUND FOR 1993-94

Reverend W. Clemens Rosenberger of Lancaster, Pa., will serve as chairperson of the Juniata Fund for 1993-94 fiscal year, according to President Robert W. Neff. Support for the Juniata Fund drive comes primarily from alumni and friends of the college.

The Juniata Fund, known for the past 24 years as the Annual Support Fund, has a goal of \$1 million for the 1993-94 fiscal year. Funds will support the student financial aid program, the library, student services and athletics.

Reverend Rosenberger recently concluded an interim pastorate at the South Bay Community Church of the Brethren in Redondo Beach, California. He will serve as interim pastor of the New Enterprise Church of the Brethren in New Enterprise, Pennsylvania, beginning on August 1, 1993.

Prior to assuming his post in Redondo Beach, Reverend Rosenberger served as pastor of the LaVerne Church of the Brethren for seven years, the Lititz (Pa.) Church of the Brethren for 16 years, and the Westmont Church of the Brethren in Johnstown, Pennsylvania, for eight years.

Reverend Rosenberger is a 1954 Juniata graduate. He received his M.Div. degree from Bethany Theological Seminary in 1958 and was awarded an honorary D.D. degree from Juniata in 1982.

Reverend Rosenberger is a J. Omar Good Trustee and has been a member of the Juniata Board of Trustees since 1979. Prior to 1979, he served as a member of the President's Development Council. He served on the Alumni Council from 1978-80, and was the group's president from 1979-80. Reverend Rosenberger was the alumni gifts vice chairperson for the Sports+Recreation Center phase of the college's successful Century II Campaign.

"We are pleased that Clem Rosenberger has agreed to chair the Juniata Fund campaign for the

Reverend W. Clemens Rosenberger

upcoming year," said President Neff. "The Juniata Fund will continue to play a vital role in our efforts to provide scholarship assistance to the majority of our students. It is the difference in Juniata's ability to provide an outstanding educational program."

"We are looking forward to working with Clem and our dedicated volunteers this year," said Beth Dahmus, director of the Juniata Fund. "It should be another exciting year of growth and success."

Reverend Rosenberger is married to the former Margaret Salzman. The couple has four children.

RUSSELL MEANS SHEDS LIGHT ON PLIGHT OF AMERICAN INDIAN

Activist Russell Means, one of the early leaders of the American Indian movement (AIM) and the organizer of the American Indian opposition to the Quincentennial observance of Columbus' discovery of America, visited Juniata College during the spring semester to address the rights and treatment of American Indians.

The lecture was sponsored by the Joint Lecture Committee of Student Government and Center Board. Ron Laue, co-chairman of the lecture committee explained, "Our initial reason for choosing Russell Means to speak was because of the mascot issue on campus. When the college began to discuss changing our mascot which is the Indian, students didn't understand why it should change. They didn't see why it could be degrading to Native Americans. We don't have any American Indians on campus and you never read much about American Indians in history books. Russell Means' presence provided the Native American perspective on this issue and the larger concern which is the plight of the American Indian," he said.

Born on South Dakota's Pine Ridge Reservation in 1939, Means was the eldest son of Hank Means, an Oglala Sioux and Theodora (Feather) Means, a full-blooded Yankton Sioux. Shortly after the outbreak of World War II, Hank Means moved his family to California where he found work with the Naval Department. Russell attended both reservation and public schools in Vallejo, California. He graduated from San Leandro High School in 1958 and continued his formal education at Oakland City College and Arizona State University.

Means explained to the more than 800 people in attendance that the earth is very sacred to his people and that all the practices of the indigenous people are based in spirituality. "We look at life and all the green things on the earth and understand that everything is important. We recognize that if you take away all the green things on earth everything would die. If you take away all the four legged animals and our relatives that swim and crawl everything would die. If you take away the human being, everything would flourish."

"The dust of the earth is the dust of the scared bones of my ancestors. The earth is

Russell Means

living and breathing...if you don't believe me you can watch the earth give birth each spring. That is why the Indian people feel so close to the earth."

Means went on to explain that his people, though portrayed as warlike, are very peaceful. "Anthropologists and archaeologists have yet to produce a weapon of war, yet they call us savages. Columbus wrote in his journal 'A people of God, they are so peace loving and generous as to a fault, therefore they would make excellent slaves.'" Means explained that his people have a system of conflict resolution, they encourage their children to develop the qualities of the mother and grandmother and yet they are labeled as warriors.

A turning point in Means' life occurred when he served as Director of Cleveland's American Indian Center. He met Dennis Banks, a co-founder of the American Indian Movement at a seminar and embarked upon the relationship that would rocket them both into national prominence. On Thanksgiving Day, 1970, they led an Indian contingent that seized the Mayflower II in Plymouth, Massachusetts.

Over the next several years, Means staged events designed to bring attention to the American Indian plight. He conducted a prayer vigil on Mount

Rushmore and filed a \$9,000,000 lawsuit against the Cleveland Indians alleging that the team's nickname defamed American Indians. Means' most famous act of defiance occurred at Wounded Knee, South Dakota on February 27, 1973. Responding to the numerous murders perpetrated by puppet tribal governments and the extreme conditions of oppression, the takeover at Wounded Knee, revisited the sight of the American Indian massacre at the hands of U.S. soldiers in 1890.

The siege at Wounded Knee lasted 71 days. As a condition to end the stalemate, he offered to surrender himself to the authorities if he would be allowed to go to Washington, D.C. to negotiate directly with governmental officials. He was flown to the nation's capital in handcuffs, but was dismayed to find that they still refused to negotiate.

Means in his address to the students explained, "when the white man came to North America seeking land he asked for freedom and for a few centuries we were able to live together. Then the government took over and things have never been the same.

"A man by the name of Thomas Jefferson mentioned in his writings that because of our physical similarities to the Asians that just maybe during one of the ice ages we came over from Asia. In fact geologists know that the ice corridors formed on northwest North America made it virtually impossible for anyone to come from Asia. Those same ice corridors made it conducive for migration going the *other way*," he said.

"Don't call me a Native American," Means said, "that is a generic government term born out of the Department of the Interior in 1970 when the assistant secretary of the interior named all the prisoners of the United States government. At a quorum in Geneva in 1977 with the United Nations we determined that we wanted to be called Indians. We were enslaved as Indians and we will gain our freedom as Indians."

Since Wounded Knee, Means has been successful in taking his case before the international community. He has lectured and attended conferences in New Zealand, Japan, South Korea, Nicaragua, Spain, Columbia, Switzerland, Czechoslovakia, England, Canada and Libya.

Means was unaware of the fact that Juniata College's mascot was the Indian until he arrived on campus. In his lecture he briefly but firmly addressed the issue. "I didn't know it until I was driving here from the airport tonight that the nickname for your school is the Indian. You have an Indian mascot. I sued the Cleveland Indians 23 years ago because

their name was demeaning and dehumanizing to my children and my people. Redskin to us is as offensive as nigger is to an African and kyke is to a Jew. You have the Washington Redskins, the Tomahawk chop and the Florida Seminoles. The people in Florida say we have permission from the Seminoles to use the name. Okay if there are some Seminoles hanging around the fort and you got permission then more power to you. But that guy riding around on a horse dressed up like a Seminole looks a lot like my people. Seminoles aren't riding any horses around the Everglades."

"The fact that we are used as mascots is very disturbing. You don't have any other ethnic group in the world that is used as a mascot. A high school in Denver recently changed its name, one of the arguments put forth was that having an Indian mascot was a way to honor the Indian people. If you are going to honor our people don't you think they should feel honored? No one has asked us if we feel honored. I resent being lumped in with bears, lions and tigers, sharks, goats and dogs. If my people are going to be free then you must be free...it is infuriating to me that your people and my people would fight over something as trivial as a name of a mascot."

Means received a call from filmmaker Michael Mann in early 1991. Mann wondered whether he would be interested in casting for a role in a movie. Becoming a movie star was the furthest thing from his mind and he respectfully refused. Upon further prompting by Mann, who assured Russell that he would not be cast in stereotypical roles, Means agreed to reconsider. Means was selected for the lead Indian role in the James Fenimore Cooper classic, "Last of the Mohicans," This film, directed by Mann, was released in September, 1992.

Ever vigilant for his cause, Means supported a walkout of some 150 Indian actors who protested discriminate treatment. He also found it necessary to reprove the production staff for insensitivity and employment of derogatory terms such as "Chief," "Redskin," and referring to an Indian choker as a "dog collar." All in all, the experience was good for Means and the entire Mohican team.

"We can read about the Civil Rights movement, we can read about how courageous our ancestors were when they came here and 'discovered' America. But only recently have we begun to understand how we have discriminated against American Indians throughout history. Means provided us with a perspective that most students had not encountered before," concluded Laue.

ZIMMERER RECOGNIZED FOR 32 YEARS OF SERVICE

Dr. Robert P. Zimmerer

Dr. Robert P. Zimmerer, the Charles A. Dana Supported Professor of Biology at Juniata College, was recently recognized for his 32 years of distinguished service as a member of the Juniata faculty. Dr. Zimmerer was honored at a special ceremony at the annual Juniata College Trustee Dinner.

Dr. Zimmerer received a B.S. degree from the University of Wisconsin in 1954 and an M.S. degree from Cornell University in 1961. He earned his Ph.D. in plant physiology-microbiology from the Pennsylvania State University in 1966.

Dr. Zimmerer served in the U.S. army as a bacteriologist from 1951-53. During the three years that followed, he was employed by Stauffer Chemical Company of San Francisco, California, and was a technical writer in the agricultural chemicals division. From 1956-57 he served as assistant plant manager and technical writer at Hopkins Agricultural Chemical Company in Madison, Wisconsin, and from 1957-59 he was a research chemist at the American Can Company in Rothschild, Wisconsin.

Dr. Zimmerer served as a teaching assistant in the Botany Department of Cornell University from 1959 until 1961 when he joined the faculty at Juniata College as an instructor in biology. He attained the rank of assistant professor

in 1963, associate professor in 1967, and in 1974 was promoted to professor of biology.

Dr. Zimmerer served three terms as the department chairman, the most recent from 1991 until his retirement. In 1976 he was named the Charles A. Dana Supported Professor of Biology at Juniata. In 1985 Dr. Zimmerer received the prestigious Beachley Distinguished Professor Award at Juniata.

Dr. Zimmerer is a past president of the Allegheny branch, American Society for Microbiology (1974-76). He is a member of the American Society of Plant Physiologists, the National Science Teachers Association, American Society for Microbiology, Pennsylvania Academy of Science, and Sigma Xi.

As a visiting professor in microbiology, he has taught at Penn State's Milton S. Hershey Medical Center (1970) and at the University of Maine at Orono as a visiting professor of botany (1971).

Dr. Zimmerer has served as a consultant to the U.S. Department of Agriculture (1973-76); J.C. Blair Memorial Hospital (1974-78); Veterinary Science Department, Pennsylvania State University (1965-67); Owens-Corning Fiberglas Corporation (1967); and the MSA Research Corporation (1966-69).

Dr. Zimmerer and his wife Mary are the parents of three children.

ARE YOU A MEMBER OF THE 54 MILLION FAMILIES WHO OWN STOCK?

by Ronald E. Wyrick, Director of Planned Giving

Stockholders know that today's high values don't necessarily mean all is rosy. Dividends may be terribly low. When it comes time to sell, there's the ugly matter of paying capital gain tax upon the appreciation of the stock. And there's the matter of the volatility of the market. Stock value could decline precipitously in the days ahead.

Juniata's pooled income fund offers an alternative—and provides an excellent way in which you can benefit the college. The pooled income fund serves as a charitable mutual fund. The rate of return to participants in Juniata's pooled income fund averaged 8.3 percent in each of the past five years. Gifts of appreciated securities escape all capital gain taxation. The fund safeguards capital by employing a mix of equities, bonds, and Treasury notes (currently at 24 % equities, 76 % notes and bonds).

How does the pooled income fund work? Consider these hypothetical examples:

Joel Juniatian '50 and Jane Juniatian '57 (husband and wife) own stock with a value of \$25,000 on the date of its gift. The stock cost Joel and Jane \$5,000 fifteen years ago. Recent dividends have averaged around 3 percent. Joel and Jane feel it may be time to sell, but will pay \$5,600 in capital gain tax if they dispose of the securities at the current market value.

Mr. and Mrs. Juniatian decide to give the stock to Juniata as a contribution to the pooled income fund. They receive approximately 25 units of the pooled income fund. Jane and Joel double their previous annual income from the stock. They receive a charitable income tax deduction of \$3,654 which may save them \$1,241 in current income taxes. By contributing the stock directly to Juniata, Joel and Jane pay no capital gain tax upon the increased value of their stock. Ultimately the value of their units in the pooled income fund will pass to the college without probate expenses and without estate taxes.

Dr. Sarah Success '48 reached a similar decision concerning a highly appreciated portion of her portfolio. She decided to contribute \$50,000 of stock which originally cost \$15,000. Avoiding capital gain tax saved Dr. Success \$9,800. Yet Sarah retained a lifetime income from her original investment by contributing the stock to the Juniata pooled income fund. Her projected income from the fund is at least \$57,600. The income tax deduction provided by the gift of the stock is

\$17,291. Based upon her current federal and state income tax rates, Dr. Success should save income taxes of \$5,870. Finally, because her estate exceeds the present federal unified gift and estate tax credit amount which excludes \$600,000 from estate taxation, her gift saves estate taxes of \$20,500.

The pooled income fund represents an outstanding opportunity today. Since the pooled income fund is an irrevocable trust arrangement, your participation would represent both an investment and a contribution to Juniata. The portion of your transfer which can be considered a charitable gift is determined by your age, the number of persons receiving income from your shares in the fund, and the fund's highest rate of return in the last three years (8.501 percent). When you consider the additional savings you could garner from this deduction, the actual fund yield is even greater than the stated return.

With a contribution of as little as \$10,000 you can participate in Juniata's pooled income fund. Additional contributions of a minimum of \$5,000 can be added to your account at any time, increasing the principal and the resulting interest income, and entitling you to further tax deductions.

When you consider your investments, consider the reasons why Juniata's pooled income fund is an attractive alternative: a highly competitive rate of return, freedom from capital gain taxation, and a

More than 100 people benefitted from an estate planning seminar held on Juniata's campus this spring. David Nielsen an expert in estate planning conducted two seminars for alumni and friends of the college.

charitable income tax deduction.

But, most important, your participation in the pooled income fund will represent a substantial and valued gift to your college. And that is the best reason of all!

Remember Joel and Jane Juniatian? Joel and Jane each received scholarships when they attended Juniata. Through their gift to the pooled income fund they designate that the college should establish a scholarship to provide financial aid to students in the Business Department. Their scholarship will be endowed upon their deaths. When the scholarship begins it will provide funds each year for worthy business students—and it will do so continuously.

However, Mr. and Mrs. Juniatian would like for their scholarship to begin immediately. They reason that the earnings from their pooled income fund gift could be put to use immediately for scholarship aid. Using the income from their participation in the pooled income fund they are able to begin their scholarship for a current Juniata student. Although income from the gift varies, they expect to receive enough to provide the minimum annual scholarship of \$1,500 per year.

Dr. Success designates her stock contribution to the endowment for faculty development with the knowledge that future instructional excellence depends in part upon providing the opportunity for continued faculty growth. Juniata has been blessed with an excellent faculty who combine love for knowledge with care for Juniata's students. Gifts such as Sarah's reflect her gratitude for the faculty who gave so much to her and Sarah's vision for the future mission of Juniata.

DONALD MITCHELL HONORED AS ONE OF NATION'S FOUR EXCEPTIONAL TEACHERS

Dr. Donald Mitchell

Dr. Donald J. Mitchell, professor of chemistry at Juniata College, was recently named one of the nation's four exceptional teachers of science, chemistry and chemical engineering at the four year college level. Other winners represent The University of Michigan, Northwestern University and Purdue University.

The announcement of the prestigious Catalyst Award winners was made by the award's sponsor, the Chemical Manufacturers Association.

Dr. Mitchell joined the Juniata faculty in 1967 as an assistant professor and was promoted to associate professor in 1976. He was advanced to full professor in 1982.

Dr. Mitchell received his bachelor of science degree from Westminster College and his Ph.D. in physical chemistry from Vanderbilt University. Prior to joining the Juniata faculty, he was a research chemist with the U.S. Naval Research Laboratory in Washington, D.C. where he worked with Nobel laureates Jerome and Isabella Karle.

From 1976 to 1977 Mitchell served as a visiting lecturer in the department of chemical engineering and fuel technology at the University of Sheffield in Sheffield, England. In 1982 he was granted sabbatical leave from Juniata to work with the department of polymer science and engineering at the University of Amherst in Massachusetts.

Dr. Mitchell has received numerous research grants and awards and has served in leadership roles of various associations of chemists and educators. In 1986, Dr. Mitchell was honored as the Beachley Distinguished Professor at Juniata College.

Since 1986 Dr. Mitchell has served as project director for Juniata's innovative Science in Motion project, an intensive, year-round program designed to improve the quality of high school science education in nearly 50 Pennsylvania high schools.

The Catalyst Awards Program honors individuals who have the ability to inspire students toward careers in chemistry and science-related fields through their excellent teaching ability in and out of the classroom. The program also seeks to draw public attention to the importance of quality chemistry and science teaching at the undergraduate level.

Since its inception, these goals have remained clear according to Robert Roland, president of CMA. "Our country's future is sitting in the classroom right now learning about themselves and the world around them. Each year we honor those educators who not only help students to recognize their own talents in the areas of science and chemistry but give them the encouragement they need to eventually pursue a science-related career."

Since the award was established in 1957, 436 teachers of science, chemistry and chemical engineering at the four-year college, two-year college, high school, middle school and elementary school level, have been honored.

Winners are selected from a wide range of nominations submitted by colleagues, friends and administrators. All pre-high school, high school, two- and four-year college or university teachers from the United States and Canada are eligible.

Each award winner will be presented with a medal and citation. National award winners receive \$5,000; regional award winners receive \$2,500.

A Juniata Powwow

Twenty American Indian tribes were represented in the powwow held at Juniata College this spring. The powwow was one of several multi-cultural programs presented on campus this year.

SPORTS

ANNETTE HOFFMAN FEATURED IN SPORTS ILLUSTRATED

Annette Hoffman '93, an elementary education major from McClure, Pa. (Indian Valley High School), was featured in the "Faces In the Crowd" section of the March 8 edition of *Sports Illustrated* magazine.

Hoffman, a 5'11 forward/center, was chosen for the feature after hitting an NCAA Division III record 19-of-19 free throws against Waynesburg College on January 25. She went on to make 40 consecutive foul shots during a four-game stretch in late January.

A recipient of honorable mention for the Kodak Division III All-America Team, Hoffman finished the season with a school-record 29.2 points per game scoring average, including 228-of-268 (.851) from the free throw line. She was second in the nation in scoring and fourth in free throw percentage among players from NCAA Division III schools. Her 49-point performance against Elizabethtown in November was the highest single-game total in Division III this season.

An All-District choice in 1990-91, 1991-92 and 1992-93, Hoffman was also a three-time All-Middle Atlantic Conference pick and the MAC-Northwest "Player of the Year" each of the past three seasons. She was the leading scorer in the MAC Northern Division for three consecutive years. Hoffman topped Juniata with 10.1 rebounds per game this season after leading the league in rebounding (8.8) a year ago.

Hoffman concluded her career with 2,269 points, making her the leading scorer in Juniata basketball history and placing her sixth all-time for NCAA Division III women. Her career scoring average of 24.1 points per game is also a school record and is fifth on the Division III chart. Hoffman connected on a school-record 723-of- 883 from the free throw line, with her 81.9 percent average good enough for the fourth spot on the all-time Division III list.

In her 94-game career, Hoffman scored in double figures 92 times including a streak of 78 games in a row from January 1990 to February 1993. She hit 20 or more

points in 66 games, and scored 30 or more 25 times. She had three games with 40 or more — 40, 47 and 49 this season. In addition to her scoring success, Hoffman ranks third on the Juniata career chart for rebounds (888), fourth for steals (174) and second for blocked shots (97).

Juniata suffered three straight losing seasons prior to Hoffman's arrival as a freshman in 1989-90. The team just missed the .500-mark that year with an 11-13 record. Juniata took advantage of Hoffman's leadership the past three seasons, however, with impressive showings of 16-8 in 1990-91, 17-8 in 1991-92, and 15-7 in 1992-93. Juniata reached the MAC Northern Division playoffs after the 1991-92 campaign for its first postseason appearance since 1979-80.

"The team would go as Annette would go," said Juniata coach Stan Risser. "She offered the complete package — shooting, rebounding and defense. She was the franchise, and I'd hate to think of where Juniata would have been without her."

Along with her accomplishments on the basketball floor, Hoffman earned three letters for contributions to the Juniata varsity softball team. She did not play softball this spring, however, in order to concentrate on her student teaching assignment. Hoffman hopes to stay close to basketball in the future through a possible career in teaching and coaching.

Annette Hoffman

Winter/Spring Sports Review

Women's Basketball

Juniata opened at 7-1 on the way to a successful 15-7 campaign — the program's best record since going 16-6 in 1985-86. Coach Stan Risser's young squad just missed the Middle Atlantic Conference playoffs with a third-place finish (6-4) in the MAC Northwest section.

Juniata went 8-1 at home, but a school-record 15-game home winning streak was snapped by MAC Northwest section champ Susquehanna, 72-58 in February. The team captured its second consecutive national free throw percentage title as Juniata led NCAA Division III with a .758 mark.

Senior forward/center Annette Hoffman concluded the season with a school-record scoring average of 29.2 points per game, second in NCAA Division III. Her 228-of-268 (.851) at the free throw line established new Juniata standards for free throws, attempts and percentage. She was fourth in the nation in free throw percentage. Hoffman earned All-MAC, All-District and All-America recognition.

Hoffman and guard Stacia Haines will be lost to graduation, but four of the squad's top five scorers should return next year. Junior forward Joy Hammers (17.0) and freshmen guards April Mlinarchik (8.3), Gen Washington (7.3) and Kerry Stefanko (4.2) were behind Hoffman in scoring average. Freshman Amy Heptner (2.9) started all 22 games.

Hammers was second to Hoffman with 7.7 rebounds per game while Washington had a team-high 118 assists. Mlinarchik tied Hoffman with a school-record 21 three-point field goals. Mlinarchik and Stefanko share the single-game record with six treys.

Men's Basketball

Juniata went 10-14 overall to reach the 10-win mark for the second consecutive season. Coach Jim Zauzig's team went 10-12 against Division III opponents, including a 4-6 mark in the Middle Atlantic Conference Northwest section.

A highlight early in the season was Juniata's championship in the first Doc Greene Tournament at Kennedy Sports+Rec Center. Host Juniata beat Washington and Jefferson, 116-111 in double overtime for the title. A memorable moment late in the season came with an 84-77 upset victory at

Susquehanna in February. The Crusaders went on to take the MAC-Northwest title.

Center Scott Instone (9.6 ppg./5.2 rpg.) was the only senior on the team. Sophomore forwards Craig Instone (16.3/7.3) and Gary Black (15.5/8.1) led the team in scoring and rebounding. The inside game had strong bench support from freshmen Mark Patrick (6.8 ppg.) and Rob Sharkey (2.5). Patrick was named the MAC-Northwest "Rookie of the Year."

In the backcourt, junior shooting guard Jeff Kearns and sophomore point guard Frank Vogel scored 9.6 and 6.7 points per game, respectively. Freshmen Andy Long (2.5), Ted Czekaj (2.1), Darin Hazel (2.0) and Kevin Trost (1.0) saw significant playing time as reserves at the guard spots.

Swimming

The Juniata men's team went 10-3 in the regular season before a ninth-place finish in the Middle Atlantic Conference Championships. The women, 7-7 overall, were 13th in the 17-team field at MACs. Coach Mike McMullen completed his first year with the programs.

Juniata made solid showings in three MAC relay events — placing sixth in the 800 freestyle, seventh in the 400 freestyle and ninth in the 400 medley relay. Senior Alex Shubert, juniors Carl Persson and Brent Parsons, and sophomore Tim Lipski swam well in the relay events.

Persson had the best individual performance for the squad with a ninth place finish in the 100 back and an 11th in the 200 back. Junior Mark Beekey was 10th in the 1,650 freestyle at MACs. Persson (16), Shubert (15) and Beekey (12) led the team in wins during the regular season.

On the women's side, Juniata's best finish in the MAC relay races was a 10th-place showing in the 800 freestyle. Individually, senior Sue Wildes took 12th in the 100 breaststroke and 16th in the 200 breast. Sophomore Marie Sullivan was 13th in the 100 backstroke and 16th in the 200 back.

Sullivan (12) and Wildes (11) were the team leaders for individual race victories this season. Sophomore Amy Somers and junior Kathy Vedock had seven wins each.

Track and Field

The Juniata men (8-6-1) and women (9-5) posted winning seasons for coach Scott Devore. The women made a 10th-place finish (27 points) at the 18-team Middle Atlantic Conference Championships at Swarthmore. The men were 16th (nine

Gennifer Washington placed fourth in the NCAA Triple Jump.

points) at MACs.

The women were led by freshman Gennifer Washington, who won the long jump to become Juniata's first women's champ in the field since Peggy Evans took the triple jump in 1985. Washington added a fifth (triple jump) and seventh (200 dash) at the conference meet. She provisionally qualified for the NCAA Division III Championships with school records this year in the long jump (18-2 1/2) and triple jump (37-4 1/2).

Freshman Angela Hazuda took second in the MAC high jump while senior Lisa DeChano was sixth in the discus. DeChano broke her own Juniata mark in the discus with a 116-10 throw at MACs.

Freshman Jason Long took second place in the MAC shot put competition to complete an impressive rookie season. Sophomore Wes Rich scored Juniata's other men's point with an eighth-place showing in the triple jump.

Junior David Prudenti had six wins during the regular season, but missed the finals in both hurdle races at MACs. He established a new school record in the 110 high hurdles this year (15.20). Freshman Mark Reitz set a new Juniata standard in the 200 meters with a 22.81 seconds dash this spring.

Baseball

It seemed like Juniata couldn't buy a single good break this spring as injuries and errors contributed to a frustrating 2-20 record. Coach Bill Berrier's squad,

which finished 2-8 in the Middle Atlantic Conference Northwest section, lost five games by one run, four games by two runs and four games by three runs.

Among the bad breaks, junior pitcher/designated hitter Ralph Rabish was hitting .615 with a 1.000 slugging mark when he broke his finger in only the fifth game of the season. He never returned to the lineup. Defensively, Juniata committed 78 miscues and allowed 55 runners to reach base on errors.

Junior SS Jeff Kearns led the team in hitting (.405) and garnered All-MAC honors for the second straight season. Two other juniors, 3B Mike Wityk (.389) and CF Matt Baker (.378) were two-three behind Kearns in batting average.

Sophomore LF Shane Martin (.308) was a GTE Academic All-America choice for District Two and was also named to the MAC Spring Academic Honor Roll. Freshman 1B Steve Cavanaugh hit .257 with a team-high seven doubles.

On the mound, senior Bill Moreau went 2-5 with a 4.47 earned run average as the team's number-one starting pitcher. Sophomore Tom Russell had one save out of the bullpen.

Berrier loses seniors C Scott Stahl (.246), RF Rich Stewart (.208) and 2B Steve Waugerman (.216) to graduation.

Softball

Juniata won four of its final eight games to post a 5-13 record for first-year coach Mike Culver. The Blue and Gold lost four games by just one run, including dropping all three extra inning contests by a single marker. Juniata finished 2-8 in the Middle Atlantic Conference Northwest section.

Senior Jodie Wise had four pitching wins this year and hit .310. She concluded her four-year career with a 17-28 mound mark, 3.11 ERA, .340 batting average, 18 stolen bases and 29 RBI. Senior SS/C Candi Walker batted .241 this spring to finish her career at .280.

Senior infielder Charlotte Mecca batted .200 this season with a career-high three stolen bases. Senior Kimm Taute hit .317 with six RBI during her first season as a regular at first base.

Sophomore SS/CF Chrisan Weyant led the team with a .435 batting average and also topped the squad in almost every hitting category. Sophomore 3B Stephanie Holland (.288) had another fine season while classmate Tara Bratton (.250) was a regular in the outfield.

Freshmen Heidi Kratzer (.233), Adriane Weingart (.189), Jackie Hand (.127), Pam Naudascher (.190) and Deb Turner (.154) were key contributors as rookies. Turner posted a 1-1 pitching record.

Men's Tennis

Juniata posted a 2-8 overall record and 1-4 mark in the Middle Atlantic Conference Northwest section for second-year coach Klaus Jaeger.

Junior David Ndlovu was the team leader in match victories with a 5-5 mark at #4 singles and a 5-5 record at #2 doubles. His doubles partner, senior Jon Thaler was 3-7 as the #1 singles player and was the team MVP. He had a 13-23 career singles mark.

Seniors Bill and John Brenner were 2-7 at the #1 doubles position to finish 13-27 over four seasons. John was 3-6 at #2 singles for an 11-29 four-year total while Bill went 4-6 at #3 singles to conclude his career at 12-21 in singles play.

Sophomores Jeff Adams (2-6 in singles) and Chad Lauer (0-5) were regulars this season. Freshmen Mike Tarpley (1-2) and Steve Krichten (0-4) and sophomore Drew Mann (0-1) also contributed.

Women's Tennis

Only one senior graduates from coach Ray Pfrogner's team, which was 2-6 overall this spring. Juniata was 1-5 in the Middle Atlantic Conference Northwest section.

Jennifer States, a four-year letterwinner, concluded her career with a 2-6 mark this season at #3 singles and a 1-6 record at #1 doubles. Her four-year records are 14-14 in doubles and 8-22 in singles play.

Juniors Betsy Van Horn (2-6 in singles) and Becky Laffey (2-6), and freshmen Catherine Tomlin (3-5), Jennifer Frick (2-1), Liz Golia (3-2) and Cynthia Hyde (3-4) should be key contributors again next season. Sophomores Jen Kelly and Colleen Ranney were 1-3 and 0-1 in doubles play, respectively.

Women's tennis will play as a fall sport beginning this September.

Men's Volleyball

Juniata closed an outstanding season with a 21-17 overall record to establish a new program standard for victories. The team captured its second straight Eastern Intercollegiate Volleyball Association (EIVA) Division III tournament championship and advanced to the EIVA elite eight.

One of the highlights of the postseason was a 3-1 win over Harvard in the EIVA

Chuck Knox '54 (right) was recently inducted into the Western Pennsylvania Hall of Fame in Pittsburgh. Juniata College President Robert Neff was on hand to congratulate the coach of the Los Angeles Rams.

first round. Juniata was eliminated by host George Mason in the quarterfinals. A big story in the regular season was Juniata's 3-2 upset win over visiting 13th-ranked Ohio State in February. Ohio State went on to the NCAA final four.

Coach Larry Bock loses three seniors — setter Mark Knaub, outside hitter Jeff Fischer and middle hitter Dennis Hohenshelt. Knaub, a three-year captain, earned All-EIVA second team honors and was an EIVA Division III all-star this season. Fischer was also named to the EIVA Division III unit. Hohenshelt was a co-captain this spring.

Junior outside hitter John Baranowski finished 14th in the country with 2.41 digs per game. Classmate Marc Schulz (327 kills) was also impressive on the outside. Sophomore OH Greg Jacobelli had 264 kills, despite missing several matches with injuries.

In the middle, junior Eric Gerko and sophomore Ryan Patton combined for 515 kills and 252 blocks. Juniors Erik Stothart and Matt Milcoff were regulars in the back-row. Stothart, who had 372 assists, will likely replace Knaub at setter in 1994.

Wrestling

Juniata finished with a 9-6 record for first-year head coach Mike Simpson. The Blue and Gold earned 31.5 team points for an 11th place showing in the 17-team Middle Atlantic Conference Championships.

Junior Shad Hoover placed second in the 158-pound weight class for the second consecutive season, but was denied a repeat berth in the NCAA Division III national tournament. Only the 10 MAC champions and one "wild card" advanced.

Hoover, who finished the season with a 21-3 record, pushed his career mark to 67-11. He will likely not return to Juniata next year, however, as he plans to go to Duke University to continue a 3-2 program in environmental science.

Seniors Colin Branton (4-10 at 134), Ferris Crilly (9-5 at 150), Dave Bundy (9-6 at 190), Tom Fisher (1-0 at 190) and Joe Kimmel (12-5 at hwt.) will be lost to graduation. Kimmel was sixth at MACs to close his career at 55-27-1. Crilly finished 51-25-1.

Junior Jeff Batey (15-6) took sixth place in the 167-pound class at MACs. He will be a leader among the returning wrestlers next year along with sophomore Brent Simpson, who was 10-12 at 126.

Golf

Juniata went 1-1 in dual competition and placed 19th at the Middle Atlantic Conference Championships as the rebuilding process continues for coach Joe Scialabba. The team did not lose any seniors to graduation.

Freshmen Justin Tucci (87.5), Mark Hawkins (90.4) and Pete Gardella (94.8) were regulars as rookies. Tucci was the team medalist in four matches and was Juniata's low scorer at MACs with a 174 total.

Sophomore Jeff Hinish (90.4) was the team medalist three times. Juniors Tim Drazba and Theo Richmond averaged 96.0 and 96.4, respectively.

Despite losing nearly a month of preseason practice due to snow and wet conditions, Juniata improved its five-score average nearly 20 strokes from a year ago to 452.7 this spring. The four-person total dropped 10 shots to 371.0 per tournament.

Split end Matt Baker, shown making a catch at Delaware Valley last fall, is an All-America candidate this season after leading the Middle Atlantic Conference in receiving a year ago. Juniata opens its football campaign on September 11 at Western Maryland College.

PRESIDENTS MEET TO FINALIZE PLANS FOR "NEW" MIDDLE ATLANTIC CONFERENCE

Juniata College President Robert W. Neff joined presidents from 15 other colleges and universities at a meeting in Chester, Pa., on May 11 to finalize plans for the new Middle Atlantic Conference. The presidents agreed in June 1992 to reconstitute the nation's oldest small-college conference. The 81-year old MAC will become an umbrella organization composed of two eight-member leagues beginning July 1, 1993.

The presidents voted unanimously to incorporate the conference, which will name a new executive director this summer. The executive director will serve as an administrative liaison between a new operations committee (made up of athletic directors) and the presidents' executive committee. Presidents Robert Bruce of Widener, Joel L. Cunningham of Susquehanna, James E. Douthat of Lycoming and Robert E. Karsten of Upsala served as inaugural members of the executive committee. Dr.

Ellen Hurwitz, Albright president, will replace Bruce for the coming year.

"The presidents approved a new constitution and new by-laws for the conference," Dr. Neff said. "It was a very productive meeting. It was also the first time that all 16 presidents met as a Middle Atlantic Conference group."

The MAC will serve as an umbrella organization for the new eight-school Commonwealth and Freedom Leagues. Juniata has been aligned in the Commonwealth League with Albright, Elizabethtown, Lebanon Valley, Messiah, Moravian, Susquehanna and Widener. The Freedom League includes Delaware Valley, Drew, FDU-Madison, King's, Lycoming, Scranton, Upsala and Wilkes.

"Juniata College has taken an active role in the realignment process since the beginning stages approximately 18 months ago," Dr. Neff said. "We feel the new leagues represent groups of similar institutions with similar commitments

toward academic and athletic integrity. The concept of presidential control in an umbrella organization will allow each league to gain a separate identity without losing the tradition of the Middle Atlantic Conference."

The presidents agreed to a championship plan that was submitted by conference athletic directors. The format provides for separate Commonwealth and Freedom League champions and overall MAC title holders in most sports. The proposal originated from athletic directors under the leadership of Juniata athletic director Bill Berrier, current MAC president.

"The agreement by the presidents encourages interleague play in all sports," Berrier said. "Master schedules and championship formats have been established for 1993-94. The presidents are also committed to limiting any expansion or realignment of the leagues and/or conference until at least July 1, 1994."

REUNION WEEKEND '93

**Plan Now for 1994 —
May 13-15.**

CLASS NOTES

First row: Mary Elizabeth (High) Bieber, Charles W. Catherman. Second Row: Ann (Hill) Duffield, Dorothy (Leiter) Barnes, Janet (Wike) Dore, Doris (High) Weidner, Pauline (Simchok) McFeaters, Marjorie (Findley) Bellfy, Ruth (Pewterbaugh) Walter. Third Row: Mary Elizabeth (Hoover) Morrow, Betty Jean (Miller) Glenn, Marian (Horner) Loew, Thomas A. Cooney, Elizabeth (Replogle) McGee, Jane (Glendenning) Abbott. Fourth Row: Jeanne (Trappe) Case, Doris (Wilson) Schock, Avis (Ensminger) Freeman, Betty (Fisher) Strayer, Sara Jane Mattern, Elizabeth (Simkins) Noffsinger, Richard M. Long, Ardie J. Dillen. Fifth Row: Frederick E. Musser, Erwin L. Hahn, J. Garwood Holsinger, Vaun A. Newill, William P. Thorn, Howard R. Whittemore, Robert M. Barr.

The class of '43 celebrated their 50th reunion in May. Thirty (30) alumni, along with their spouses, attended what turned out to be a great weekend of fellowship and activities. Now the class of '43 will forever be a part of Juniata's elite group known as "Emeriti".

27

Elizabeth (McCartney) Kuehnoel is currently teaching a class in Shakespeare at the Bellingham Senior center. She is in good health and is enjoying doing whatever she feels like doing, including cultivating her own rose garden.

30

H. Harold Hartzler of Fort Wayne, IN recently published an autobiography. It was reviewed by The County Observer and a copy of it can be found in the Juniata College Library.

34

Edith (Replogle) Eshleman and husband J. Wilbur have moved to Luther Acres in Lititz, PA. They are still spending winters in Seminole, FL.

36

John D. Long recently celebrated his seventy-eighth birthday. He retired after spending sixty years in the ministry and fifty-four years in the pastoral ministry in the Church of the Brethren.

WASHINGTON D.C. YOUNG ALUMNI NETWORKING — NOVEMBER 16, 1992

Twenty Washington D.C. area residents gathered at the Old Ebbitt Grill for an after work networking event. This beautiful, historic location provided an excellent locale for sharing fabulous food and great company.

38

Robert H. Beck, M.D., of Huntingdon was presented with a certificate from the Pennsylvania Medical Society recognizing fifty years of medical service.

41

Charles M. Bieber is serving as the interim pastor of the Ephrata Church of the Brethren.

43

Max R. Garber is enjoying his retirement by doing some travelling and visiting his family. He is living in Albermarle, NC.

49

Paul D. Rhodes is retired and is now making and repairing jewelry as an avocation while enjoying the Florida sun.

50

Ekkehard W. Eickhoff, a retired ambassador, is now teaching history at Stuttgart University in Germany.

William McK. Wright and his wife are enjoying retirement by travelling around the world to countries including China and Japan. They also continue to teach swimming at the YMCA while living in Salisbury, MD.

The Bucks County Choral Society, under the baton of artistic director **Elma (Stine) Heckler** was selected for the Arts Award of the Central Bucks Chamber of Commerce, Bucks County, PA. Elma is now in her sixteenth season. She also serves on the music advisory panel of the Pennsylvania Council on the Arts and is a member of both the American Choral Directors Association and Chorus America.

51

D. Keith Binkley and his wife Kathryn have moved to Henrietta, NY and are planning to

pursue activities such as oil painting, "do-it-yourselfing" and travel trailing to the warm climates.

Gene K. Shaffer has retired after 41 years of service at the YMCA. He last served as executive vice president of the YMCA of Greater New York. He now spends his time golfing, sometimes as much as five or six days a week.

54

Juanita Carfora is a Spanish teacher at Central Regional High School.

Anna Mae (Reid) Bock is retiring from Franklin County Area Vocational-Technical School after working for over 26 years in education. Anna Mae had a sabbatical for the past year which helped prepare her for this momentous decision.

Charles R. "Chuck" Knox, head football coach of the Los Angeles Rams, was inducted into the Western Pennsylvania Hall of Fame on Sunday, May 2, 1993. The event was held at the Sheraton Station Square, Pittsburgh, with over nine hundred people in attendance.

55

Shirley (Detwiler) Lingenfelter of Altoona was selected for the Loretto museum board. She is also a gift shop volunteer at the Nason Hospital, Roaring Spring, and serves as a deacon and board administrator at the Roaring Spring First Church of the Brethren.

James R. Kimmel was publicly honored by the Ohio Library Association, being presented the Ohio Trustee of the Year Award. This award is in recognition of effective advocacy for library service at the local, county, regional and statewide level and particularly for creative and energetic leadership on the Board of Trustees of the Southwest Public Libraries of Franklin County, Ohio.

56

Reverend R. Neil Albright, pastor of Christ United Methodist Church, Tyrone, PA, has been named chaplain at Epworth Manor, the United Methodist retirement center complex at Tyrone.

58

Mary Lou (Zimmerman) Kepner has retired from teaching after 31 years in elementary education. She celebrated with a two week trip to Egypt with her husband.

George B. and Hermina (Joyce) '61 Cline have moved to St. John, U.S. Virgin Islands and are living aboard their sailing vessel *Infini* while they build their house overlooking

Coral Bay. George took early retirement after 25 years as biology professor at the University of Alabama at Birmingham.

59

Sally (Ebersole) Addicott has accepted a position with the Boothbay Region Elementary Schools as a behavior resource room teacher and consultant.

Joan A. Fyock is currently serving as director of music ministries for the Lititz Church of the Brethren. She is teaching private voice and private piano lessons.

HUNTINGDON ALUMNI DINNER — NOVEMBER 30, 1992

The annual holiday event was held in conjunction with the Artists Series performance by the River City Brass Band. Over one hundred alumni and friends of Juniata joined to inaugurate the holiday season by enjoying good food and fellowship.

60

Darlene (Schrock) Betar has completed a term as president of the Pennsylvania Home Economics Association. She has been appointed to the American Home Economics Association professional marketing and public relations committee.

62

Stan C. Smith, Jr. has been promoted to personnel manager, retail operations for Bridgestone/Firestone, Inc., retail stores division.

63

Lynn Streightiff has announced the opening of Bouquet Street Books in McConnellstown, PA.

66

Carol (Heaton) Pletcher is now technical director of the Oil Seeds Division at the Cargill Corporation.

Thomas B. Robinson has announced his appointment as vice chancellor for student affairs at the University of Massachusetts at Amherst.

68

Thomas L. Bowser has received a new position as district executive of the Northern Plains District. He is settled into his new home and his family is doing well.

Lila (Eggert) Darling has begun employment as a Public Health Program Administrator with the Pennsylvania Department of Health, Harrisburg, in the Cardiovascular Risk Reduction program. She is also serving as president of the Central Pennsylvania Dietetic Association.

69

Robert K. Monti has been appointed manager, warehousing in The Kelly-Springfield Tire Company's Fayetteville, North Carolina plant.

Robert P. Good, MD has been appointed chief of orthopaedic surgery, Bryn Mawr Hospital, Bryn Mawr, PA. He is also clinical assistant professor of orthopaedics at Jefferson Medical College.

John L. Batchelor recently completed the requirements for his doctor of education degree at Temple University in the Department of Curriculum and Instruction. He is employed by the Colonial School District, Plymouth Meeting, PA.

70

For the past two years, **Peter A. Schuyler** has been involved in selling plastics in China as the director of sales and marketing for Montpel, Ltd., a joint venture company between Himont, Inc. and the People's Republic of China. He and his wife, Catherine currently live in Hong Kong.

71

Laurence S. Carbonetti has recently received two appointments. He has been selected to serve as the education representative on the Governor's Blue Ribbon Commission for Education Finance Reform for Vermont. He has also been elected to serve a two year term on the Board of Overseers of the Northeast Regional Education Laboratory.

Robert L. and Frances (Pahoofski) Gray are living in Terre Haute, IN, where Bob is vice president of finance for General Housewares Corporation. Fran is a housewife and an advocate for learning disabled children.

73

Fred C. Mason has received a masters of business administration with honors from the University of Chicago.

Kelly (Crain) Wike has adopted a son, Jeremy Lynn. Jeremy came to the family from Portland, Oregon on December 22, 1991.

74

Kathryn E. Irwin has earned an M.S. from Bucknell University. She is currently an elementary enrichment teacher at the Selingsgrove Area School District.

75

Anthony C. Martuzas is a purchasing agent for coin dealership systems. He has been transferred to Atlanta, GA after living in Southern California for fourteen years. He'll miss playing softball on Christmas and New Year's Eve, but most of all, he'll miss alumni meetings with the head coach of the Los Angeles Rams!

Robert N. Trigiano served as a volunteer with the International Executive Service Corps, in Santa Cruz, Bolivia. He assisted in determining and laying out the equipment necessary to set up a lab and greenhouse for a vitro pineapple reproduction.

Jan (Nolan) Crouthamel has received her master's degree in educational administration from the University of Phoenix. She is currently gradelevel chairperson at Stevenson School in Mesa, AZ. Jan and husband, Dr. David Crouthamel have a thirteen year old son, Josh. The family resides in Chandler, Arizona. Jan says to stop by if you're ever in the "Valley of the Sun"!

76

Gail (Morgan) Habecker passed the third and final exam and is now designated a chartered financial analyst.

Ruth Ann (Randall) Offutt has been elected president of the Board of Directors of Advocates for the Homeless, Inc. Ruth is president of Barranca-Offutt, Inc., a Frederick, MD advertising agency and serves on the regional advisory board of First National Bank of Maryland, board of directors of Frederick County Advertising Foundation and the board of directors of the Maryland Theatre in Hagerstown.

Jeffrey J. Wood has been named trust officer at Northern Central Bank in Williamsport, PA.

78

Diane (DeRafelo) Goedde is licensed as a registered nurse working at Deaconess Medical Center Psychiatric Unit in Red Lodge, MT.

Laura S. Havard has achieved the status of licensed certified social worker and is employed as a Clinical Social Worker at the National Naval Medical Center in Bethesda, MD, specializing in oncology.

Donald A. Schagen is employed by the city of Lebanon, New Hampshire as the manager of the Water and Wastewater Department Laboratories. He and his wife, Margaret have three children, Kurt, age 3 and twins Margaret and Raynalde, age 16 months.

PITTSBURGH PENGUINS/BRUNCH — JANUARY 9, 1993

On Saturday, January 9, 1993, Pittsburgh area alumni and friends met for brunch at the Hyatt Hotel in downtown Pittsburgh prior to attending the Pittsburgh Penguins hockey game. A special feature of the event was the attendance of six prospective students and their families. Alumni and staff were afforded the opportunity to share Juniata experiences while the future Juniatians learned more about the College through informal discussion. This event is one of several at which alumni and admission staff work cooperatively.

79

Robert S. McMinn has been admitted to practice law in Huntingdon County, PA., after receiving juris doctor degree magna cum laude from the University of Pittsburgh.

Kathleen (O'Neill) Gildea is employed by AT&T in Bedminster, NJ.

Nancy "Tate" Brunner is employed as a clinical neuropsychologist in New Jersey after receiving her Psy.D. in clinical psychology in 1988. She enjoys ocean kayaking and decorating a new house.

80

Jane M. Davis has accepted the position of director of the Kaltreider Memorial Library in Red Lion, PA.

After twelve years at sea, **Thomas E. Drzewiecki** is now assigned to the surface warfare division of the staff of the Chief of Naval Operations at the Pentagon in Washington, D.C. He is an action officer in the ship safety and survivability office, specializing in chemical/biological warfare defense.

81

Cindy (Goldstein) Bertaut has received her master's degree in general administration from the University of Maryland.

Beth Y. Butler, M.D. has completed her obligation to the Army and has joined five other pediatricians in private practice in Johnstown, PA.

John A. Cook has been promoted to executive officer of Penn Central National Bank, serving as vice president and director of marketing for the bank and its parent corporation, Penn Central Bancorp, Inc.

D. Scot Malay, D.P.M., has opened a practice in State College, PA.

Anita (Dilling) Sather has accepted the position of sales counselor for Westminster Woods at Huntingdon, a continuing care retirement community.

Harriet L. Braun has completed her master's degree in horticulture from Pennsylvania State University and is living in Flagstaff, AZ, caring for two year old daughter, Sarah. Harriet would like to meet other Juniatians in the area.

82

Robert P. Aravich, Jr. is employed by West One Bank, as vice president for corporate banking. He is currently living in Boise, ID.

Don A. DeArmitt, M.D. was promoted to Major in June, 1992. He is currently stationed at Ft. Belvoir, VA as a family practice doctor and flight surgeon.

83

Robin (Blackburn) Maslanik has completed administrator-in-training program and has become a licensed nursing home administrator in Colorado Springs, CO.

Karen (Bollman) Tripolitis is a reading specialist for the Wyomissing, PA school district. She has two daughters, Lauren, age 5 and Kristen, age 3.

Lynanne M. Schaffer resides in Mt. Penn, PA and works for an industrial manufacturing company as assistant to the director of marketing.

James Kralik III successfully defended his masters of science thesis, in October, 1992. He presented his research at the Geological Society of America annual meeting in Cincinnati, OH. He is employed as an associate geologist at ABB Environmental Services, Inc., in Michigan. He and his wife Ann (Taylor)'83 reside in Wixom, Michigan.

Pierre V. and Maria (Dolson) '86 Verroye have recently moved to Germantown, MD. Pierre is project manager with Kunitz and Associates.

Helen Maria (Hodgson) Hurst graduated in December, 1992 from The University of Southwestern Louisiana with a Bachelor of Science in nursing. She now works as a registered nurse in labor and delivery at Lafayette General Medical Center in Lafayette, LA. In April, 1993, she was inducted into Sigma Theta Tau, the international honor society of nursing.

84

Andrew K. Kortyna has completed his Ph.D. at Connecticut Wesleyan and has accepted a post-doctorate position in Germany.

Gregory A. Kimble M.D. graduated from the internal medicine residency program at Community General Hospital in Harrisburg, PA and now lives in Altoona, PA, with his wife Lore and daughter Lindsay, age 1 1/2 and works as an internal medicine specialist.

Jeffrey R. Rush is vice president of secured lending, Meridian Bank, Reading, PA.

HERSHEY, PENNSYLVANIA — JANUARY 13, 1993

Alumni from the Central Pennsylvania club gathered for dinner at the Hershey Motor Lodge and a Hershey Bears hockey game on this cold January evening. The alumni event and hockey game were firsts for some of the group. What a surprise to find a young woman in the crowd, wearing a Juniata sweatshirt. Ken Dudzik, director of development, took a Juniata cap to her to complete her outfit.

Joan (Barrett) Versaggi received her master's degree from West Chester University, West Chester, PA., in December, 1992.

Mary (Trubilla) Phillips is working part-time for American Medical Labs in Chantilly, VA as a senior cytotechnologist.

Bradley S. Selman has joined Curtis 1000's national headquarters in Atlanta as marketing specialist. Brad received his MBA from the University of Tennessee in 1989.

85

Kathryn D. Harwick was promoted to operations manager at the northeast regional office for Georgia Pacific Corporation in Denville, N.J.

Mark A. Loeper is western region account manager for the specialty division of Sherwin Williams Co. He resides in Stow, OH, with his wife Julie and daughter Kayley, age 5.

William D. Stamp received his MBA in 1992 and is director of planning and market research for Guthrie Healthcare System in Sayre, PA.

Wendy Greengrove-Smith is an attorney with GPU Nuclear Corporation in Parsippany, NJ.

Dr. Robert W. Ryder is currently the pastor of the First Presbyterian Church in South Sioux City, NE. This is his second pastorate since graduating from Princeton Seminary. He lives "across the river" in Sioux City, IA, with his wife, Susan, also a pastor.

86

Timothy Achor-Hoch has been selected to receive an Earthwatch Artists and Writers' Award and will be participating in an expedition that will track timber wolves in Ely, MN. He plans to use the experience to collect reference for a series of paintings portraying the wolf through the lens of European and Native American cultures. He works as the art director for Bread for the World, a citizens' movement on hunger issues in Washington, D.C.

Craig R. Bieler received his Ph.D. in chemistry from the University of Pittsburgh and is working as a research assistant at the University of Southern California. He resides in Huntington Beach.

Christopher E. Savage is vice president of Key Forms, Inc., in Holland, PA.

Luther J. Thomas, Jr., is a senior treasury analyst for Johnson and Johnson in New Brunswick, NJ. He received his MBA from Rutgers University in May, 1992.

David R. Trinkley, M.D. has begun his residency in internal medicine, primary care, at Hahnemann University Hospital, in Philadelphia, PA.

Amy (Clark) Frederick is director of social work for a life-care community. She resides in Meriden, CT, where her husband, Gregory works for the State of Connecticut - Department of Corrections.

87

Kristine (Smith) Macchini is enjoying her new position as coordinator at WillCare, a home health care company, in Hamburg, NY. She and husband Ronald are awaiting the final closing on a farm house, complete with herb gardens, goats, sheep and chickens.

Brian F. Achey has joined as a partner in the Bethlehem, PA law firm of Butterfield, Joachim, Schaedler & Achey.

Jerome J. Dvorak is vice president of Meridian Capital Markets, Inc. in Ft. Lauderdale, FL. He is also a member of the board of directors of Starting Place, a not for profit adolescence chemical dependency agency.

Marjorie J. Risser, M.D. is a resident in oral and maxillofacial surgery at the Medical College of Virginia.

Erik R. Olson received his Ph.D. in chemistry from Dartmouth College in February, 1993 and is doing postdoctoral research in chemistry at the University of Notre Dame in South Bend, IN.

Kathy M. Croft has accepted a position of office manager with the division of plastic surgery in the department of surgery at The George Washington University, where she is also pursuing a master's degree in educational administration.

88

Jill (Ranck) Maguire has been promoted to the position of senior financial reporting analyst for Meridian Bancorp, Reading, PA.

Todd R. Moore is employed by Hershey Bank, Hershey, PA as loan officer.

A Juniata Wedding: Clayton Carlin '87 and Shelly Duncan '87 were married on April 4, 1992. Many Juniata alumni were in the wedding party or attended the wedding. Bridesmaids included: Lynn Basham '86, Debra (Ollinger) Miller '88 and Laura (Mumaw) Palmer '87. Ushers included: Chris Frew '87 and William Snyder '87. Other participants included: Robert Crossey '87, Mark Dorner '88, Bruce Catando '86, Stephany Porter '86, Amy Smith '88, Mary Lou Miller '88 and Ruth (Woodrow) Bancroft '85. Guests included: Morgan Johns '87, Kimberly Glaude '89, Greg St. Clair '88, John Slick '87, Lynda (Cass) Kelly '89, Yvonne (Maldonado) King '88, and Stephanie Lantz '89.

John E. Petrovic received a Title VII fellowship and is working on his Ph.D. at the University of Colorado at Boulder. He also teaches English as a Second Language.

David C. Smith was promoted to senior marketing analyst with Martin Marietta Aggregate. He and his wife **Liz (Russell) '90** reside in Raleigh, NC.

Paul Granger has received his degree in pharmacy from the University of Toledo and is employed with Rite Aid in the Hershey, PA area. His wife **Tammy (Achenbach) '89** is taking a year off from her career in higher education to enjoy motherhood with Taylor Page.

Debra (Ollinger) Miller is a doctoral degree candidate at Pennsylvania State University in biobehavioral health.

Susan (Stump) McGrath and husband Evan reside in Crestwood, PA, where they are both teachers and athletic coaches at the Wyndcroft School in Pottstown, PA.

Karen (Marburger) Heart has been promoted to clinical scientist II at Wyeth-Ayerst Research and is completing her MBA in managerial information systems at St. Joseph's University.

Christopher K. Waugh received his masters of science degree in psychology from Shippensburg University, Shippensburg, PA.

89

Andrea D. Anfiteatro received her master's degree in forensic psychology from John Jay College of Criminal Justice. She resides in Frederick, PA.

George N. Zanic has been admitted to practice law in Huntingdon County, PA, after receiving his juris doctor from Widener University School of Law.

Jeffrey S. Boshart is an intern for ECHO (Educational Concerns for Hunger Organization), which focuses on tropical subsistence farming and gardening.

Linda S. Lloyd graduated from the University of Pittsburgh School of Law and is working as a staff attorney in the Department of Labor for the Unemployment Compensation Board of Review, in Harrisburg, PA. She is having fun living a real life without always having to study!

Dawn E. Mahlau received master's in social work from Fordham University and is working as a social worker in the emergency room of a hospital in New York City. She has recently travelled to Greece and Czechoslovakia. She is interested in getting together with other Juniata alumni in New York city.

CHICAGO, ILLINOIS — FEBRUARY 6, 1993

Twenty-five Juniata alumni and friends gathered together for dinner in Greek Town, Chicago prior to attending a performance of the Chicago tour of *Miss Saigon* at the Auditorium theater. Besides enjoying the outstanding production, everyone shared in the lively bonhomie' and warm fellowship of Juniatians gathered together on a winter evening in the Windy City.

David G. Smith graduated from Widener University School of Law, Harrisburg Branch, in May, 1992. He resides in McVeytown, PA with his wife, Andrea, and works in the Huntingdon County District Attorney's office.

Deborah L. Smith continues to work as director of social services at Jefferson Manor Health Center, Dubois, PA.

Michael A. Martin received his juris doctor degree from Ohio Northern University and is employed as an attorney in Huntingdon, PA.

Timothy A. Park is a systems engineer for Corning, Inc., in Corning, N.Y. His wife **Marianne (Griesbach) '90** is also employed by Corning, Inc., as an analyst. The couple resides in Corning.

Dawn Ann Fine is working as a case manager for United Cerebral Palsy of Central Maryland. She is pursuing her master's degree in community counseling at Towson State University.

Joseph D. Zaleski is a sales representative for I.M.R. Limited.

Diane (Hontz) Phongsuwan is a loan servicing representative for Sovereign Bank/Penn Savings Bank in Wyomissing, PA. She recently returned from living in Thailand and Japan while teaching "International Understanding" and English to Japanese students.

Timothy M. Crowley has completed his assignment with the USMC and is looking forward to travelling around the United States. (He's gone around the world enough!). He and his wife **Carolyn (Kowecki) '90** will be doing a lot of fishing and looking for a nice place to settle down. He met fellow Juniata alumnus **Bruce W. Bader '70** during NATO Operation Teamwork '92 in London.

90

John E. Deppen was voted Employee of the Month for the Northumberland County Department of Human Services for his instruction in CLANCY, Coordinated Learning Alternatives for Northumberland County youth.

Beth (Angerole) Leney is an instructor with the adult development center at United Cerebral Palsy in Escondido, CA. She resides in San Diego while her husband, Derek completes a six month deployment as naval flight officer on the USS Ranger.

Lynn L. Merritt is a program analyst for Health Care Financing Administration in Baltimore, MD after receiving her master of urban planning degree with a concentration in health policy from the University of Michigan.

Laurel A. Snow is a research assistant, Pediatrics Department at the University of Maryland Hospital in Baltimore, MD. She received her master's degree in psychology from Loyola College.

Matthew D. Stroh is attending the Dickinson School of Law.

Becky Ann (Moul) Zaleski was recently promoted to senior professional sales representative for Bristol-Myers Squibb.

Dana (Glenny) Lynch is now working at the Metamorphosis Residential Drug Treatment Center as a drug counselor I. This program is run through the Alachua County, FL, Department of Corrections. She and her husband, Michael, and daughter, Sara Elizabeth, reside in Gainesville, FL.

HARRISBURG YOUNG ALUMNI NETWORKING — MARCH 23, 1993

Twenty three Harrisburg area residents from the classes of 1975-1992 gathered at "Cahoot's" in the Marriott. Lively discussion and ideas for future functions were shared. These events continue to be popular for recent grads to exchange grad school and employment information with each other.

Robert S. Hitson is healthcare representative for Duplex Products in Pittsburgh, PA.

91

Deborah D. Dougherty is a graduate assistant for the Sociology Department while attending graduate school at the University of Baltimore.

Michael T. Horne was awarded honorable mention in the Benjamin/Cummings Campbell Biology Prize competition held in Redwood City, CA. The topic was methods of teaching a biology class on the secondary level. Michael attends Pennsylvania State University in pursuit of his Ph.D. in biology.

Christine Ann Lutz is certified as a medical technologist, having passed the national certification agency for medical technologists and the American Society of Clinical Pathologists.

Michelle L. Wissinger works as a social worker for Berks County Children and Youth in Reading, PA.

Jeanette R. Zalder is a consultant for SEER Technologies, Inc., an international software development company. She will receive work assignments in Japan and Germany.

Jeffrey A. Muriceak is attending the Dickinson School of Law.

Satoko Kobayashi earned a master's degree in communication from State University of New York College at Brockport in December, 1992. After graduation, Satoko began working for a Japanese business publication, US Frontline News, as an editor and writer.

Scott M. Beatty is working on his master's degree in creative writing and thinking at Iowa State University where "the corn is as high as an elephant's eye." He is also teaching freshmen English as a teaching assistant.

Thaddeus J. Loucks received his master's degree in environmental science at C.W. Post/Long Island University. He is currently employed by Environmental Restoration Company in Richmond, VA.

Michael E. Speaker is a laboratory analyst for KEVCO Services in Butler, PA.

James F. Adams will be a third year law student at Duquesne University.

92

Karl K. Brown, Lance T. Marshall and Robert G. Maylock are attending the Dickinson School of Law.

Eric C. Donaldson recently began working for the City of Milwaukee Police Department.

Matthew L. Gibson will be graduate assistant football coach at Villanova University where he will be working on his master's degree in educational administration.

Shana Leigh Herb is working on her masters of arts in dramatic literature and theory at Louisiana State University.

Michael T. Land is a hydrologist with U.S. Geological Survey, Water Resources Division, in San Diego, CA.

Jason K. Miller has signed a one year contract to play for the Kempten Comets in Germany's National Football League.

Gloria Ribas is enrolled at the multiregional international business program which consists of an internship at Velcro Canada, LTD and graduate studies at York University in Toronto.

Christina B. Smith is an administrative assistant in corporate relations for Dow Jones and Company in New York. She is volunteering as an art therapist's assistant in a hospice program and plans to attend graduate school for art therapy.

Cheryl A. Reynolds '85 and Mark Geiger were married on December 5, 1992, and now reside in Jamesburg, PA.

William D. Stamp '85 was married to Pauline Vose on April 28, 1990.

Wendy Greengrove-Smith '85 and Dennis Smith were married on September 19, 1992 and reside in Florham Park, NJ.

Gretchen Young '85 was married to **Timothy B. Stonesifer '86** on June 13, 1992.

Melissa A. Maddox '86 was married to Myles MacDonald on October 24, 1992. They are living in Weymouth, MA.

Amy E. Clark '86 married Gregory Frederick on October 24, 1992.

TRUSTEE W. CLAY BURKHOLDER

W. Clay Burkholder, 85, of Valley View Haven, Belleville, died at 5:50 a.m. Sunday, Feb. 21, 1992, at Valley View Haven.

Born Sept. 18, 1907, in East Altoona, he was a son of the late Harry G. and Anna (Walker) Burkholder. His wife, Kathryn (Harry) Burkholder of Valley View Haven, Belleville, survives. They were married in 1943.

He was preceded in death by a sister. He received a bachelor of education degree in 1935 from Juniata College, and a master's degree in education from the Pennsylvania State University.

A teacher-administrator for 39 years, he served as county superintendent of the Mifflin County schools for 21 years and from 1971-1974 was executive director of the Tuscarora Intermediate Unit. He retired in 1974.

Mr. Burkholder was a member of the White Memorial United Church of Christ, Milroy, was a life member of the Pennsylvania State Education Association, was a member of the National Education Association, Phi Delta Kappa and was an emeritus member of the American Association of School Administrators.

He was a charter member of the Milroy Lions Club for 45 years. In 1964, he was awarded by the Department of Public Instruction its Distinguished Contributions to the Advancement of

W. Clay Burkholder

Education Award.

He served as president of the Juniata College National Alumni Association, was the annual support fund chairman, was chairman of the President's Development Council of Juniata College, was vice alumni chairman of the Sports and Recreation Center Phase of the Century II Campaign and was the planned gifts chairman of Phase II.

In 1973, he received the National Alumni Service Award. In 1985, he received an honorary degree, "Doctor of Law," from Juniata College.

He was an alumni representative on the board of trustees from 1980-1983 and was a Juniata College Board member from 1983 until his death.

Sandra L. Hall '87 married John E. Snowden on February 22, 1993. Sandra is now working in an analytical lab in Harrisburg, and the couple resides in Hershey, PA.

Lisa L. Leininger '87 was married to Justin Gerstle, Jr., on February 7, 1993, in Antigua, West Indies. A reception was also held in Selinsgrove, PA on February 20, 1993. The couple resides in Palmyra, PA.

Michelle Duncan '87 and **Clayton G. Carlin '87** were married on April 4, 1992. Many Juniataans were in the wedding party or attended the wedding (Picture)

Erik R. Olson '87 was married to Renee Bauer on October 24, 1992. The couple resides in Mishawaka, IN.

Mark N. Heinly '88 and **Amy K. Ludwig '89** were married on April 24, 1993.

Kimberly A. Ross '88 married Kenneth L. Balch on September 5, 1992. They reside in Wayne, PA.

Susan J. Stump '88 was married to Evan McGrath on August 29, 1992.

Debra Lynn Ollenger '88 married Benjamin Miller on February 13, 1993. The couple resides in State College, PA.

Timothy A. Park '89 and **Marianne F. Griesbach '90** were married November 14, 1992.

Diane J. Hontz '89 married Unnop "Wolf" Phongsuwan May 4, 1992 in Thailand.

Joseph D. Zaleski '89 and **Becky Ann Moul '90** were married February 15, 1992.

James L. McMonagle '89 and **Julie L. Azar '89** were married February 13, 1993.

Michael W. Cottle '89 and **Mireille Morgan** were recently married and are living in Lancaster, PA.

Michelle M. Bannon '90 was married to **Michael J. Reno '91** on October 3, 1992.

Elaine S. Roberts '90 and **Eric M. Kintzer '90** were married in June of 1992.

Janine Hyde-Broderick '90 and **Jay Broderick** were married February 26, 1993. They reside in Kunkletown, PA.

Jenise M. Ianaro '90 and **Daniel K. Jones '90** were married on September 19, 1992. The couple resides in Ashland, VA.

Carolyn F. Sheedy '92 was married to **Jonathon B. Seckinger '90** on June 6, 1992. They reside in Frenchtown, NJ.

BIRTHS

A son, **Edward Kyle** was born on November 12, 1992 to **Kathy** and **Stan Smith '62** in Naperville, IL.

Peggy and **Paul R. Long '73** happily announce the birth of their son, **Timothy Matthew** on May 22, 1992. They live in Wilkes-Barre, PA.

Mark and **Linda (Fisher) Massa '74** announce the birth of a daughter, **Arielle** on February 4, 1992. The family resides in Horsham, PA.

John Russell Franks was born to **Jane E. Jenness '76** and **Gerald J. Franks** on December 20, 1992 in Falls Church, VA.

Nancy (Osborne) Manwiller '79 and her husband proudly announce the addition of a son, **Alex**, to their family in May 1992.

Linda D. Baker '79 and **William J. Messersmith '79** announce the birth of their son, **Matthew William**, on January 8, 1992. They reside in Mertztown, PA.

Andre and **Nathalie (Vercruysse) Richier '79** wish to announce the birth of their first child **Adam**. The family lives in Bruxelles, Belgium.

CENTRAL PENNSYLVANIA RECEPTION — JANUARY 22, 1993

Helen Schmidlen and **William Adams '57** served as gracious hosts at their lovely home in Lancaster for the annual reception for alumni and friends. Enticing hors d'oeuvres and tantalizing desserts were enjoyed around the cozy fireplace as alumni and friends of all ages conversed about the Juniata of today. **Michelle M. Bartol '84**, associate director of admissions provided literature and names of prospective students from the area.

ELIZABETHTOWN BASKETBALL GAME — JANUARY 30, 1993

Elizabethtown College alumni invited Juniata alumni for a buffet supper prior to the two colleges' basketball teams taking to the court. It was a great idea and good fun to meet on the campus of our "sister college".

Sylvia and **R. Gerhard Struecker '79** have announced the birth of their second child, **Thomas** on September 18, 1992. They live in Dortmund, Germany.

Barbara (Linder) '79 and **Michael Reinhardt** announce the birth of **Sarah Nicole** on January 31, 1993.

Steve Koreivo '79 and wife **Laurie** announce the birth of their first child, **Alexandra Ann**, on April 2, 1993. The family resides in Byram Township, NJ.

Cynthia (Brumbaugh) '79 and **Harold Burton** announce the arrival of **Michael Park** on April 28, 1992. Michael was welcomed home by brother **James** and sister **Katie**.

Scott D. '80 and **Marianne (Morgan) O'Neill '81** announce the birth of **Daniel David** on May 3, 1991. Daniel joins his brother **Matthew**. The family resides in West Chester, PA.

Christopher '80 and **Susan (Southwick) Lyons '81** announce the birth of **Megan Courtney** on January 23, 1993. He joins **Scott**, age 11, **Sara**, age 9 and **Matthew**, age 6.

Cindy (Goldstein) '81 and **Richard Bertaut** announce the arrival of their son, **Scott Martin**, on January 16, 1993.

John A. Cook '81 and **Susan**, are the parents of **Andrew Michael**, born September 14, 1992.

Michael Frederick Charles was born on August 24, 1992 to **Michael E. Bliss '82** and **Rebekah**. The family is living in Manassas, VA.

Kelly J. Petracca '82 and her husband, **Dean S.**, would like to announce the birth of their second child, **Mitchell Dean**, on December 31, 1992.

D. Michael Craleay '82 and wife **Theresa** are proud to announce the birth of their daughter **Samantha Kathryn** on November 10, 1992. The family lives in Red Lion, PA.

Justin Alexander was born to **Karen (Norton) '82** and **Eric D. Biddle, '82**. The Biddles reside in Huntingdon, PA. Eric is associate director of admission at Juniata.

Patrick J. Clark '83 and his wife, **Barbara** have announced the birth of their first child, **Kelly Ann** on July 3, 1992. The family is living in Narberth, PA.

Amy (Garthwaite) Hubert '83 and husband, **Freddie** proudly announce the birth of their first child, **Kathryn Christeen**. Kathryn was born on September 1, 1992.

Antonius Oskamp '83 and wife, **Monika** announce the birth of a son, **Julian Tim** on March 8, 1992. The family resides in Germany.

Mitchell Gregory Spryn was born to **Lucinda (Slezek) '83** and **Nickles G. Gregory '84** on December 22, 1992.

Cathy (Rosevear) '84 and **Joseph Crownover** announce the birth of their first child, **Matthew Joseph** on March 7, 1993.

FORT LAUDERDALE, FLORIDA — FEBRUARY 3, 1993

A new location, new faces, and a new idea all were the basis for a fabulous evening. **Karen (Scherer) Audet '63** had the great idea to do a dinner/cruise on the Inland Waterway. This event brought alumni together for reliving Juniata and life experiences. The success of this evening encouraged people to plan a cruise for next year.

Karena (Stellar) '83 and **John Comoss** announce the birth of their daughter **Delaney Stellar** on October 27, 1992. The family resides in Harrisburg, PA.

Christoph '84 and **Reta Schwemmlein** announce the birth of a son **Arnold** on March 21, 1993.

Gary and **Judith (Eastep) Baker '84** are pleased to announce the birth of their second child, **Benjamin Eastep** on June 29, 1992. Benjamin joins his brother, **Max**. The family resides in Newark, DE.

Burdett Porter '84 and wife **Cynthia** proudly announce the birth of a daughter, **Elizabeth**, on August 1, 1992. The family is living in Chesapeake, VA.

Mary Phillips '84 announces the birth of their daughter, **Amy Joan**, on October 3, 1992.

Pamela (Keeney) Gerberich '85 and husband **Scott** are happy to announce the birth of a daughter, **Chelsea Ann** on June 22, 1992. Chelsea joins sister, **Tessa** who is two years old. Pamela is busy with work, church, and family. She enjoys visiting with fellow alumni, and hopes all is well at Juniata.

Bruce and **Laura (Keat) Grindrod '85** from Dearborn, MI announce the birth of their second child, **Elizabeth Richardson** on February 1, 1992.

Rena (Baer) Lambert '85 and husband **Dave** celebrate the birth of **Eric David** on April 4, 1993. His sister **Gretchen** is two years old.

Lauren (Hill) '85 and **Ian Slimon '84** announce the birth of **Emilia Page** on March 15, 1993.

Dana R. and Fran (Fry) Smith '85, '85 announce the arrival of Andrew Frederick on December 3, 1992.

Lewis Baylor, M.D. '85 and wife Debra announce the birth of Rebecca Tamara, on February 7, 1993. The family resides in North Augusta, SC.

Nancy (Briggs) Fogg '86 and her husband, Craig, would like to announce the birth of their daughter, Sarah Elizabeth, on February 9, 1993 in Monticello, NY.

Beth (Bence) '86 Reinke and husband Bruce announce the birth of Benjamin Tyler on February 11, 1993. The family lives in Stewartstown, PA.

Brian T. '88 and **Susan (Headley) '90 Kopp** announce the birth of their son, Michael Joseph on August 27, 1992. The Koppes reside in Hollidaysburg, PA.

Taylor Paige Granger was born to **Tammy (Achenbach) '89** and **Paul Granger '88** on November 20, 1992.

Michele (Minor) Wolf '88 and husband David announce the birth of their daughter Brittney Michele on February 9, 1993. The family resides in Baltimore, MD.

Thomas John Ritchey, Jr. was born to **Suanne (Hodge) M. '89** and Thomas Ritchey on February 22, 1993. They are living in Brewster, NY.

Dana (Glenny) '90 and Michael Lynch announce the birth of their daughter, Sara Elizabeth, on October 27, 1992.

SEBRING, FLORIDA — FEBRUARY 6, 1993

The forty-fifth Annual Juniata College Florida Alumni Association met in the J. M. Blough Fellowship Hall of the Sebring Church of the Brethren, President Paul M. Robinson '35, presided. Seventy-three alumni and friends from all over the states were present and received a warm welcome from President Robinson, and Robert W. Neff, President of Juniata College.

Dr. M. Andrew Murray, received an enthusiastic welcome when it was announced that he would sing two songs which he had composed. Dr. Murray, Director of the Baker Institute of Juniata College described the emerging project that will involve the Baker Institute, the International Association of University Presidents, and the United Nations Office of Disarmament Affairs.

President Neff did an up-date on campus happenings.

The Association will meet next in 1994 on Saturday, February 5th at noon in the J. M. Blough Fellowship Hall of the Sebring Church of the Brethren.

LETTERS TO THE EDITOR

April 28, 1993

Dear Editor

This letter is in response to Dr. Claude Flory's "An Essay on Native American Agitators" which appeared in the Spring 1993 Bulletin. Dr. Flory was right in his claim that Indians are not natives. I also believe that the term "Native American" is not appropriate. But, then, so do many "Native Americans." In fact, most do not object to being called American Indians. However, just as Anglos claim ancestry from specific European countries, American Indians prefer to identify themselves with their nation, not with a generic coverall thrust upon them by a lost sailor. Just as my Anglo friends claim to be of English, Polish, or German descent, my American Indian friends call themselves Ute, Cherokee, Navajo, Cheyenne, Sioux, Apache, or Seminole.

Dr. Flory also notes that the Juniata mascot was decided on by "authentic Christians who had no intention of insulting or dishonoring 'Native Americans' or any other people." If the student body was comprised of Christians, why didn't Juniata become the Juniata Christians? It certainly would have been more representative. Instead of tomahawks, they could have waved crucifixes and perhaps prayed after touchdowns. Why don't we become the Juniata Jews? It sounds good and we could wave bank statements instead of pom poms. Excuse me if these stereotypes offend, that was not my "intention." The point, Dr. Flory, is that regardless of intention, the perpetuation of stereotypes into the twenty first century is not only insulting to the stereotyped parties but should also be insulting to those of us who claim to have graduated from a progressive institute of higher education. By the continued subordination of one group to a "mascot level," Juniata is anything but progressive.

With the present remembrances of the German Holocaust, let us not forget the American Holocaust, which lasted far longer. Through the belief in Manifest Destiny and the resultant government policies towards American Indians we have killed off in less than 100 years no

fewer than 150 of 190 or so Indian languages. With them we have lost pieces of history and culture. The genocide was complete for many nations, such as the Yahi in California. Fortunately, our government was not willing to spend the money necessary for a complete genocide of all of the Indian nations. Let us cherish those nations that have survived as part of our national history. Let us allow them to cherish their own heritage. Let us not continue to belittle peoples to whom so much harm as already been done.

Sincerely,

John E. Petrovic '88
University of Colorado, Boulder

April 29, 1993

Letters to the Editor

I read with great interest the two (2) points of view expressed in the recent College Bulletin on Juniata's mascot.

However, with all the other problems (Opportunities) at Juniata in particular and the world in general, I am amazed that this can be so great a concern on a college campus. We need these young talented minds to concentrate on important issues. Our country has many serious problems that imperil our future. We read of them in our newspaper everyday. Is a mascot of greater concern?

Long ago our country learned you cannot legislate respect, morality or racial equality. This can only come from the heart. Changing mascots by fiat does not change the heart.

Whether we like it or not, in today's society the major function of our college experience is to prepare ourselves for the business world, be able to make a living and contribute to our society. Before more time and effort is spent on the ethereal, let us be sure the practical is accomplished. Let's give the mascot issue a rest. When every graduating senior who wants a job has a job, then lets discuss mascots.

Stephen L. Werner, CLU '67
Milwaukee, Wisconsin

BLAIR-BEDFORD — FEBRUARY 14, 1993

On Valentine's Day a group of 30 alumni, prospective students and families met for brunch at the Calvin House in Duncansville. Janine (Everhart) Katonah, '69, immediate Past President of the National Alumni Association, was present to bring greetings and along with others encouraged prospective students. The brunch followed the Presidential Ball weekend. Relaxing and warm describe its ambiance.
